PARK CITY MUNICIPAL CORPORATION PROPOSED WATER STANDARD DETAIL REVISIONS

April 25, 2014

The current Edition of Park City's *Design Standards, Construction Specifications and Standard Details* establishes standard requirements for constructing Park City Water's transmission and distribution projects. The City's Water Department is in the process of updating and clarifying the document in a major revision to the Water Standard Details.

We are looking to collect feedback from users of the document. Proposed documents have been posted on the PCMC Water website. Please provide comments using the *Document Revision Request* form provided.

Proposed *Water Standard Plans* can be found on the Park City webpage, parkcity.org/Doing Business/Water/Projects.
