

# HISTORIC SITE FORM - HISTORIC SITES INVENTORY

PARK CITY MUNICIPAL CORPORATION (10-08)

## 1 IDENTIFICATION

Name of Property:

Address: 52 Prospect Street

AKA:

City, County: Park City, Summit County, Utah

Tax Number: PC-232-232-A

Current Owner Name: Dell Roger Fuller

Parent Parcel(s):

Current Owner Address: 2857 Hackney Ct, Park City, UT 84060

Legal Description (include acreage): 0.10 acres; PARK CITY BLOCK 18 BLOCK: 18 LOT: 4BUILDING: 0.00BEG AT THE SE COR OF LOT 4 BLK 18 PARK CITY SURVEY (SD PT BEING S 14\*02' W 8 FT FROM A STONE WALL ON GRANTORS PROPERTY); & RUN TH W 20.48 FT; TH N 61\*13' W 10.82 FT; TH S 35\*47' W 6.42 FT; TH W 46.29 FT TO THE NW COR OF LOT 5 BLK 18 PARK CITY SURVEY; TH S 13\*59' W ALONG THE W'LY LINE OF LOTS 5 & 6 29.80 FT; TH S 80\*17'71" E 66.36 FT; TH S 58\* E 12 FT TO THE E'LY LINE OF LOT 6; TH N 14\*02' E 47.9 FT TO THE PT OF BEG

## 2 STATUS/USE

### Property Category

- building(s), main
- building(s), attached
- building(s), detached
- building(s), public

## 4 ARCHITECTURAL DESCRIPTION & INTEGRITY

Building Type and/or Style: Hall-Parlor type

No. Stories: 1

Researcher/Organization: Dina Blaes/Park City Municipal Corporation

Date: November, 08

Additions:  none  minor  major (describe below) Alterations:  none  minor  major (describe below)

Number of associated outbuildings and/or structures:  accessory building(s), # \_\_\_\_\_;  structure(s), # \_\_\_\_\_.

General Condition of Exterior Materials:

Good (Well maintained with no serious problems apparent.)

Fair (Some problems are apparent. Describe the problems.):

Poor (Major problems are apparent and constitute an imminent threat. Describe the problems.):

Uninhabitable/Ruin

**Materials** (The physical elements that were combined or deposited during a particular period of time in a particular pattern or configuration. Describe the materials.):

Foundation: Concrete with stone veneer.

Walls: Drop siding.

Roof: Gable roof form sheathed in metal material.

Windows/Doors: Double-hung sash type.

Essential Historical Form:  Retains  Does Not Retain, due to:

Location:  Original Location  Moved (date \_\_\_\_\_) Original Location:

**Design** (The combination of physical elements that create the form, plan, space, structure, and style. Describe additions and/or alterations from the original design, including dates--known or estimated--when alterations were made): The one-story frame hall-parlor house has been significantly altered. The 1907 Sanborn Insurance map suggests a hall-parlor (single room depth) with two small square additions on the rear corners. One of the additions is visible from the primary public right-of-way and has a shed roof that extends beyond the eave of the original hall-parlor and is extended to reach the midpoint of the hall-parlor gable. The tax cards note minimal changes to the general form of the house. The c. 1968 tax photo shows substantial changes including plank siding, open metalwork porch columns and hand rails, a basement addition with stone veneer, changes to the window openings, and aluminum side slider windows. In 1995, these incompatible changes were still evident. Sometime between 1995 and 2006, many elements--porch roof, porch posts, fenestration, and window type--were restored, but it is not known if they were based on historic photographs or were based on typical designs used in Park City during the mining era. Though many design elements appear to have been restored, the overall changes are significant and render the site ineligible for listing in the National Register of Historic Places.

**Setting** (The physical environment--natural or manmade--of a historic site. Describe the setting and how it has changed over time.): The setting is not significantly altered from what is seen in early photographs. The house sits on approximately 0.10 acres on a narrow sloping lot. Landscaping is informal and minimal.

**Workmanship** (The physical evidence of the crafts of a particular culture or people during a given period in history. Describe the distinctive elements.): Though there has been an effort to restore some historic elements, much of the physical evidence from the period that defines the typical Park City mining era home has been altered and, therefore, lost.

**Feeling** (Describe the property's historic character.): The physical elements of the site, in combination, convey a sense of life in a western mining town of the late nineteenth and early twentieth centuries.

**Association** (Describe the link between the important historic era or person and the property.): The Hall-Parlor house form is the earliest type to be built in Park City and one of the three most common house types built in Park City during the mining era.

Though efforts have been made to restore some of the historic elements, the cumulative effect of alterations to the site render it ineligible for listing in the National Register of Historic Places.

## 5 SIGNIFICANCE

Architect:  Not Known     Known: (source: )

Date of Construction: c. 1904<sup>1</sup>

Builder:  Not Known     Known: (source: )

The site must represent an important part of the history or architecture of the community. A site need only be significant under one of the three areas listed below:

### 1. Historic Era:

- Settlement & Mining Boom Era (1868-1893)
- Mature Mining Era (1894-1930)
- Mining Decline & Emergence of Recreation Industry (1931-1962)

Park City was the center of one of the top three metal mining districts in the state during Utah's mining boom period of the late nineteenth and early twentieth centuries, and it is one of only two major metal mining communities that have survived to the present. Park City's houses are the largest and best-preserved group of residential buildings in a metal mining town in Utah. As such, they provide the most complete documentation of the residential character of mining towns of that period, including their settlement patterns, building materials, construction techniques, and socio-economic make-up. The residences also represent the state's largest collection of nineteenth and early twentieth century frame houses. They contribute to our understanding of a significant aspect of Park City's economic growth and architectural development as a mining community.<sup>2</sup>

2. **Persons** (Describe how the site is associated with the lives of persons who were of historic importance to the community or those who were significant in the history of the state, region, or nation):

3. **Architecture** (Describe how the site exemplifies noteworthy methods of construction, materials or craftsmanship used during the historic period or is the work of a master craftsman or notable architect):

## 6 PHOTOS
