Subject: Treasure Project

Hello Bruce.

I hope my name is familiar to you. As you may recall I lived in Park City from 1972 thru 2014. I owned and operated Park City Signs for 35 years. Currently I am living abroad, but I still own my home in Prospecter, which I built in the early 1990's. Although I am living in Europe these days, I try to keep abreast of what is going on around town. My reason for contacting you personally is my concern with the ongoing dialogue concerning the Treasure Hill development. I could go on for hours with my concerns for the impact that this proposed development will have on the future of Park City. The recent artists rendering illustrating the scope of the 'Proposed' development have SHOCKED me with the scale that has been illustrated. If this scale is anywhere close to being an accurate depiction of what is 'Actually' proposed by the Sweeney's, I am quite frankly at a loss for words. I know you too are a long time resident of PC. I know too of your commitment to the town we knew and loved all these years. Yes we have seen major changes, and exponential growth, over the years, but THIS project is an abomination to say the least. Frankly I am blown away, that THE SWEENEY'S want to see what has been recently depicted as a development on their property. However, if in fact that is the case, then I strongly urge you to do anything within your power to insure that this development NOT be approved as it is portrayed in these most recent renderings. To say that this development would destroy any resemblance of the ambiance that PC has enjoyed over the last 45 years, would be a gross understatement. I cannot begin to stress my disillusionment with the breadth of this proposed development, and the negative affect it would have on our town. I hope that you will do your damndest to prevent this travesty from being afflicted on the people of Park City. Thank you for your time. Jeff Packard
