Dear Planning committee:

I attended the last open forum on the Treasure Hill discussions. I also walked about on the mountain to review the site. (September 14th) I sincerely hope that if Treasure Hill is ever granted rights to build on that site, that they be required to develop a separate access road into the site. Perhaps an access road located above North Star and Lowell Ave. I can't imagine the impact the traffic congestion and real safety concerns that would be created by building on that site and thinking all incoming and outgoing traffic would flow through our neighborhood streets. Please help preserve our safety and neighborhood.

Thank you for all the work you do for our town.

Sincerely,

Greg Mackay  
1030 Lowell Ave
