All:

I've been a resident on and off since 1972. Having grown up and raced on the Park City Ski Team for 10 years, and then living here as an adult since 1990 I've had front row seat watching the town grow. While I'm generally in favor of private owners developing their land in a responsible manner, I must say the proposed development is anything but responsible, in fact it's beyond acceptable. The Sweeny's should have moved on their approval back in the 1980's when they had it. Much has changed since then and most recently Vail's purchase of PCMR has mixed blessings. The town for all it's wonderful attributes has not adequately addressed the traffic and parking issues for today much less where things are projected to be in 20 years.

I can't stress enough our families view of how negative this type of project would be for our town.

Sincerely,

Cameron R. Burr
