The members of THINC would like to request that in order to truly complete your due diligence regarding Treasure Hill, and the traffic item currently on the agenda, that a walk through of the streets be completed before the next meeting in February.

We all were able to complete a walk through of the Treasure site, so a “walk-about” of the streets should also be required.

A live tour is certainly a reasonable request so that we may point out the various uses and access points that will be at risk during and after construction.

If the meeting were to be held at the library, we could park there and then walk up to Empire and complete the Empire/Lowell Circle and return to the library.

Coffee will be provided!!!

We thank you for your consideration.

If I may assist in this in any way, please get in touch with me.

Thank you

Kyra Parkhurst
