Subject: Treasure Hill Traffic Report

The THINC organization would like to have the attached video included in any and all records for the approval of the CUP on Treasure Hill.

This video is a clear example that no amount of mitigation of the project will allow for the safe and proper passage of construction vehicles, service vehicles and pedestrians on Empire and Lowell.

The traffic study completed that "counts cars, measures road width, and measures timing of traffic lights" will not show the reality of life on Empire and Lowell Avenues.

Download the video right here, <https://we.tl/kRVJm6Wxzt>

Thank you.

Kyra Parkhurst
