

Dear Planning Commission,

I feel that the Treasure Hill Project complies with the Land Management Code Criteria simply because the Project, as part of the Sweeney Properties Master Plan Development (Sweeney Property MPD), was previously approved by the Planning Commission and City Council. The only thing we are debating now is the size and scope of the project.

Seriously? After the millions and millions and millions of square feet of retail and residential properties that have been approved by the Planning Commission and City Council, since the original approval of Sweeney Property MPD. I urge the commission to pass the Project as it stands today and move on.

The Treasure Hill Project will be a boon to Park City Old Town. It will create a third true base of the mountain for skiing. Old Town will finally become a true ski town. And a true ski in and ski out town.
