

Park City's Bag Bank

Last May, Park City instituted Utah's first plastic bag ban in order to reduce local pollution and promote the reuse of materials.

Do you part to show your support and help others reduce the use of disposable bags!

Participate by bringing your extra reusable bags (freshly washed please) to the Park City Bag Bank during Climate Week events.

Step 1- Gather your extra reusable, fabric bags.

Step 2- Wash your bags.

Step 3- Bring your clean, extra bags to [Climate Week](#) events.

Step 4- At the event, look for the Bag Bank and leave your bags for someone else to use.
