Dear City Councilors, Planning Commissioners and Diane,

The bottom two pictures are in front of my home at 843 Norfolk last evening and the top one is of Crescent Tram behind my house (just a few feet from the entrance to the downsized but still huge Treasure development). It was gridlock. A fire truck or ambulance would have been unable to save either our homes or our lives. This gridlock is happening on a pretty regular basis now, not just during Sundance and Arts Festival. Who knows how bad it will be when Treasure adds to the mix.

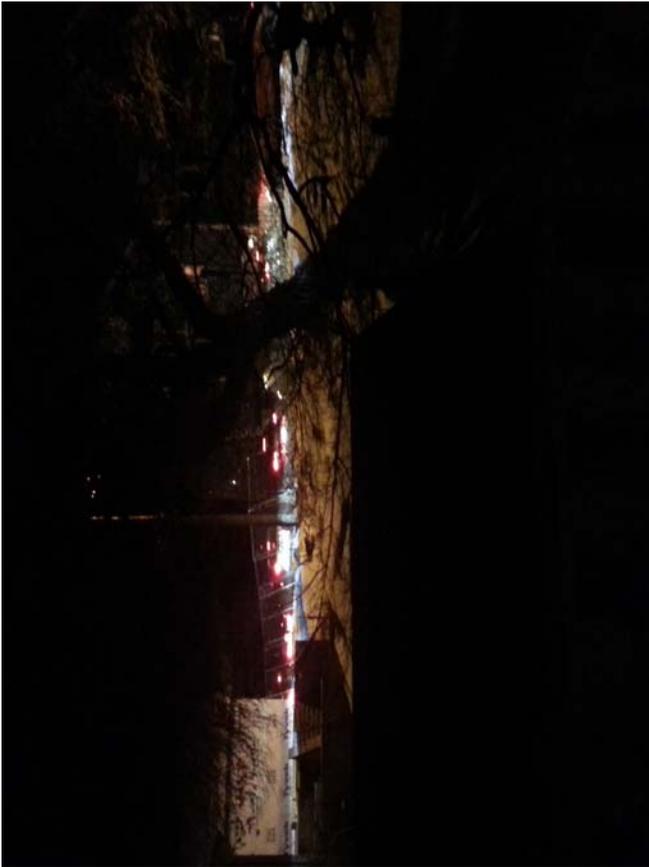

Additionally, the internet was down and most of the TV stations had the little blue box telling us to be patient our shows are temporarily unavailable.

Our rights to a healthy, safe and enjoyable life are rapidly disappearing. We residents of Old Town need your help. SOS!!

Thank you for your consideration.

Respectfully,

**Linda McReynolds**
