15-1 -1. SHORT TITLE.

This Title shall be known as the Park City Land Management Code (LMC).

15-1 -2. STATEMENT OF PURPOSE.

The LMC is designed, enacted, restated and reorganized to implement the goals and policies of the Park City General Plan, and for the following purposes:

- (A) To promote the general health, safety and welfare of the present and future inhabitants, Businesses, and visitors of the City,

(C) To protect and preserve peace and good order, comfort, convenience, and aesthetics of the City,

(D) To protect the tax base and to secure economy in governmental expenditures,

(E) To allow Development in a manner that encourages the preservation of scenic vistas, environmentally sensitive lands, Historic Structures, the integrity of Historic Districts, and the unique urban scale of original Park City,

(F) To provide for well-planned commercial and residential centers, safe and efficient traffic and pedestrian circulation, preservation of night skies and efficient delivery of municipal services,

(G) To prevent Development that adds to existing Geologic Hazards, erosion, flooding, degradation of air quality, wildfire danger or other conditions that create potential dangers to life and safety in the community or that detracts from the quality of life in the community,

(H) To protect and ensure access to sunlight for solar energy devices, and

(I) To protect or promote moderate income housing.

It is the intention of the City in adopting this LMC to fully exercise all of the powers

Deleted: =s

granted to the City by the provisions of the Title 10, Chapter 9a of the Utah Municipal Land Use Development and Management Act. Utah Code Annotated, 1991, as amended, and all other powers granted by statute or by common law for the necessary regulation of the Use and Development of land within the City.

(Amended by Ord. No. 06-22)

15-1 -3. CONFLICT.

The provisions of the LMC are in addition to all other City ordinances, the Laws of the State of Utah, the Laws of the United States, and applicable common law. The LMC shall not supersede any private land Use regulations in deeds or covenants, which are more restrictive than the LMC. Whenever a conflict exists, the more restrictive provision shall apply to the extent allowed by law. The City does not enforce private restrictive covenants, nor shall any such covenant have the effect of modifying the regulations herein.

15-1 -4. DEFINITIONS.

All capitalized proper nouns in the text of the LMC are defined terms. Defined terms are located in LMC Chapter 15-15.

15-1 -5. ZONING MAP ADOPTED.

The zoning map for Park City as adopted by the City Council and executed by the Mayor is the Official Zoning Map for Park City. Upon amendment to the Official Zoning Map, the Mayor shall execute a new map, or re-execute the existing map with the amendments noted thereon.

15-1 -6. ZONE DISTRICTS AND ZONE MAP.

In order to carry out the purposes of the LMC, Zoning Districts have been established as set forth in LMC Chapters 15-2 and as identified on the Official Zoning Map. In interpreting the Official Zoning Map, the following standards shall apply:

(A) The zoning boundary lines are intended to conform to existing Property boundary lines when not in a public Right-of-Way, or to follow the center line of public Rights-of-Way, including prescriptive Rights-of-Way, unless the lines are located by specific dimensions, in which case the dimensions shall control.

(B) Where the Zoning District lines appear to have intentionally divided a Lot or Parcel between two (2) or more districts, the applicable zoning for each portion of the Lot or Parcel must be determined by using the scale shown on the map.

(C) There is no minimum Area or diversity of ownership requirement for a zone designation. Neither the size of a Zoning District nor the number of landowners within the district may be used as evidence of the illegality of a Zoning District or of the invalidity of a municipal decision.

(Amended by Ord. No. 06-22)

15-1 -7. AMENDMENTS TO THE LAND MANAGEMENT CODE AND ZONING MAP.

All amendments to the LMC must be made in the following manner:

15-1 -10. CONDITIONAL USE REVIEW PROCESS.

There are certain Uses that, because of unique characteristics or potential impacts on the municipality, surrounding neighbors, or adjacent land Uses, may not be Compatible in some Areas or may be Compatible only if certain conditions are required that mitigate or eliminate the detrimental impacts.

The Planning Department will evaluate all proposed Conditional Uses and may recommend conditions of approval to preserve the character of the zone, and to mitigate potential adverse effects of the Conditional Use.

A Conditional Use shall be approved if reasonable conditions are proposed, or can be imposed, to mitigate the reasonably anticipated detrimental effects of the proposed Use in accordance with applicable standards.

If the reasonable anticipated detrimental effects of a proposed Conditional Use cannot be substantially mitigated by the proposal or imposition of reasonable conditions to achieve compliance with applicable standards, the Conditional Use may be denied.

The City must review all proposed Conditional Uses according to the following procedure, unless a subsequent provision of this LMC specifically sets forth an administrative approval process for a specific Conditional Use, in which case that section shall control:

(A) **PRE-APPLICATION CONFERENCE.** An Applicant may request a pre-Application conference with the Planning Department to discuss the proposed Conditional Use and the conditions that the staff would recommend to mitigate proposed adverse impacts.

(B) **THE APPLICATION.** An Applicant must file a Complete Application on forms provided by the Planning Department for Conditional Uses.

(C) **NOTICE/POSTING.** Upon receipt of a Complete Application, the Planning Department shall provide published notice once fourteen (14) days prior to the hearing and courtesy mailed notice to Owners of Property within three hundred feet (300') of the proposal. (See Section 15-1 -12. NOTICE.) The Planning Commission shall conduct a public hearing on the proposed Conditional Use permit and shall either approve, deny, or modify and approve the permit.

(D) **STANDARDS FOR REVIEW.** The City shall not issue a Conditional Use permit unless the Planning Commission concludes that:

- (1) the Application complies with all requirements of this LMC;
- (2) the Use will be Compatible with surrounding Structures in Use, scale, mass and circulation;
- (3) the Use is consistent with the Park City General Plan, as amended; and

15-1-13. COMPLETION OF SITE IMPROVEMENT WORK PRIOR TO THE APPROVAL OF PLATS OR ISSUANCE OF CERTIFICATES OF OCCUPANCY.

(A) **POLICY.**

(1) **GUARANTEE REQUIRED.** In order to protect the City from the financial burdens resulting from damage to or increased maintenance costs for City facilities that may occur as a result of incomplete or inadequate Site or Public Improvements on construction projects, it is the policy of the City to require that Developers either complete all Site or Public Improvements prior to occupancy, or

if that is not possible, that adequate financial Guarantees for completion, together with a right of entry to the Property to complete that work be granted to the City. No plat will be approved, where required, and no Certificate of Occupancy granted unless and until an adequate financial Guarantee is posted in accordance with this section. It is also the policy of the City to require Developers to post a financial Guarantee to ensure compliance with a Historic Preservation Plan whenever a Building project affects a Historic Building, Structure, Site or Object, as defined by this Title.

(2) **NO THIRD PARTY BENEFICIARIES INTENDED.** It is the intention of the City that this financial Guarantee given by the Developer is limited to a contract between the City and the Developer for the express purposes of providing for the protection of City facilities, eliminating conditions which could become public nuisances, and ensuring compliance with a Historic Preservation Plan. It is not intended that this security be available for payment of subcontractors or material suppliers in the nature of a surety bond, or that the security provided become available to the purchasers of Property to correct construction flaws or defects, which are the fault of the Developer.

(B) **CONSTRUCTION ACCORDING TO APPROVED PLANS.** All construction shall be completed according to

the approved plans on which the Building permits were issued. The approved plans shall also include the Site and Public Improvements shown on the Site plan. Where applicable, the approved plans shall also include a Historic Preservation Plan. For purposes of this Code, the term "Site Improvement" shall include all roads, sidewalks, curbs, gutters, drains, drainage works, Grades, walls, landscaping, planting, paving, paths and trails, and similar improvements as shown on the set of plans on which the final approval and Building permits are based. The term "Public Improvement" is defined in Chapter 15 of this Title. The term "Historic Preservation Plan" means a plan approved by the Planning Director and Chief Building Official, or their designees, that specifies the Historic character of a Historic Building Structure, Site or Object, and the methods and means a Developer will use to preserve that Historic character during the Building project. Deviations from the approved plans must be approved in advance by the Chief Building Official.

(C) **GUARANTEE FOR COMPLETION**. No Certificate of Occupancy will be issued, nor any plat approved when plats are required by this Code, unless the Building and all required Site or Public Improvements are completed, or the Developer has provided adequate security to Guarantee completion of the Site or Public Improvements. When the Site or Public Improvements and the Building cannot be completed simultaneously due to weather conditions or other factors beyond the control of the Developer, excluding financial inability to complete the project, the City may grant plat approval for

recording and/or issue Certificates of Occupancy for the project, provided the following conditions are met:

- (1) The Building or Buildings, or portions thereof, on the Property to be platted or occupied have been constructed in accordance with the approved plans for those Buildings, and are in full compliance with applicable Building and fire codes, and are completed to the extent that only exterior Site or Public Improvement work remains unfinished; and
- (2) The Building Official determines that occupancy of the Buildings, or portions thereof, prior to completion of required Site or Public Improvements is safe and that Access for emergency vehicles is adequate with the Site or Public Improvements unfinished; and
- (3) The Developer posts an adequate Guarantee for the benefit of the City to insure completion of the Site or Public Improvements in full compliance with the approved plans within one (1) year from the date of plat approval, if required, or issuance of the Certificate of Occupancy, whichever occurs first.

(D) **AMOUNT OF GUARANTEE FOR SITE OR PUBLIC IMPROVEMENTS**. The amount of the Guarantee for Site or Public Improvements to be posted by the Developer, shall be equal to 125% of the amount reasonably estimated by the City Engineer, or his designee, as

being necessary to complete remaining Site or Public Improvements as shown on the approved plans. In the event that the Developer disputes the City's cost estimate, the Developer may prove a lower construction cost by providing binding contracts between the Developer and contractor or subcontractor appropriate to perform the required work as a stated, fixed price. These contracts must be supported by a 100% performance bond, insuring performance by the subcontractor or contractor. Bid proposals are not satisfactory for this purpose. If the contracts submitted are acceptable in form, the amount of security required shall be 125% of the total contract price of all such contracts submitted, plus the estimated reasonable cost of performing any work not covered by the contracts. Specifications in such contracts shall be sufficiently clear to identify the work called for under the contract.

(E) **TERMS OF GUARANTEE.** The terms of any Guarantee arrangement offered to the City shall state a date by which the Developer agrees to have Site or Public Improvement work completed in accordance with the plans, and shall further provide that in the event that the Developer has not completed the required Site or Public Improvements work by that date, the City may at its option and on its schedule, draw on the Guarantee by its own act, and shall not be required to obtain consent of Developer to withdraw funds for completion of the work shown on approved plans. The City's actual costs in administering the completion of work in the event of a default by the Developer shall be reimbursed from the Guarantee.

(F) **FORM OF GUARANTEE.**

Guarantee arrangements offered in lieu of simultaneous completion of Buildings and Site or Public Improvements shall be in an amount fixed under the terms of Section 15-1-13(D), and shall be in one or more of the following forms:

- (1) An irrevocable letter of credit issued by a bank authorized to do Business in the State of Utah or an out-of-state bank, provided that a bank authorized to do Business in Utah confirms in writing that it will honor the letter of credit, naming Park City Municipal Corporation as the payee of funds drawn against that letter of credit and Guaranteeing the availability of funds for one (1) year, or
- (2) A deposit of cash with a third party Escrow, or
- (3) A deposit of cash with the City, or
- (4) Some combination of the above as approved by the City or an approved equal.

(G) **RETAINED AMOUNT.** The amount in excess of the actual construction costs, but in no event more than twenty five percent (25%) of the actual construction cost, shall be held for a period of one (1) year following final inspection and approval of the Site or Public Improvement work by the City. The retained amount may be provided in any of the ways described in Section 15-1-13(F). If the Developer fails to

provide a new Guarantee sixty (60) days prior to the expiration of the Guarantee instruments provided for the initial construction under Section 15-1-13(F), the City shall make a demand or draw on that Guarantee to the extent of the required retained amount, and hold the proceeds in cash until and unless other adequate Guarantee, as provided in this Code, is posted by the Developer. The retained amount will be used to replace or repair any Site or Public Improvements, which fail or appear to be defective during the one (1) year period. The corrective work may be done by the City or the Developer. At the completion of that work, the retained amount, or so much of it remains, shall be released. Retained amounts may be drawn and applied to any outstanding fees owed by the Developer to the City, provided that such fees are imposed by ordinance and the amount of the fees is not contested by the Developer.

(H) **MODIFICATION OF PLANS.** A Developer may, at its option, request modifications to plans covering Site or Public Improvement work by submitting revised plans to the City for review and action. Until the revised plans have received approval by the City, the Developer shall be required to offer a Guarantee for the performance of the Site or Public Improvement work as shown on the last set of plans to have received City approval. Upon acceptance of revised plans by the Department, the City shall release any cash, credit or other Guarantee held, which is in excess of 125% of the completion cost, estimated, of work shown on the most recently revised plan. If the modification of the plans increases the cost of required Site

or Public Improvements, additional Guarantee must be provided by the Developer to cover the increased costs.

(I) **PAYMENT OF INTEREST.** The City shall not be required to pay interest to the Developer on any funds in escrow or on cash held by the City as a Guarantee.

(J) **DETAILED SITE PLANS.** A detailed Site plan shall be presented, showing the location and nature of drainage works, Grade changes, retaining walls, and landscaping, together with any trails, paths, or walkways that may be included or required under other provisions of the Land Management Code.

(K) **SINGLE FAMILY HOMES.** This provision shall apply to all construction in Park City, including single family homes, provided, however, that the amount of Guarantee required for single family homes shall be the reasonably estimated cost to complete construction of any Site or Public Improvements on a labor and materials basis, and the estimated cost to complete landscaping, to the extent necessary to hold the soil in place, on the basis of materials only.

(L) **PHASED PROJECTS.** Site or Public Improvements applicable to each phase of a phased project or Development shall be completed or Guarantee for completion provided as each phase is constructed and either platted or occupied. Site or Public Improvements on other phases of the project shall be completed or Guarantee offered as those phases are completed.

15-1 -14. TERMINATION OF PROJECTS FOR INACTION.

Recognizing the length of the planning review process will vary with the size and complexity of each proposal, Applicants must move their projects either to approval or denial in a reasonably expeditious manner. The City may formally deny Applications, which remain inactive for long periods of time due to acts or omissions of the Applicant. See Section 15-12-15 (A) (10).

(A) **TERMINATION OF APPLICATIONS.** When the Planning Director finds an Application to be inactive, the Planning Director may deny the Application and close the files with respect to that project. No Application shall be denied on the basis of Inaction without giving fourteen (14) days written notice to the Applicant. Such notice must state the intent of the Planning Director to have the project denied because of Inaction and the right to contest said denial to the Planning Commission.

Delays occasioned by the City shall not constitute cause for terminating an Application.

(B) **REINSTATEMENT.** An Applicant may appeal the Planning Director's denial of a project for Inaction to the Planning Commission in the same manner as any other appeal. The Planning Commission may reinstate subject to payment of full or partial submission fees, reinstate subject to

specific ordinance changes, or deny reinstatement. If reinstatement is denied, the Application is considered formally denied. If the Applicant desires to proceed with the project, the Applicant must submit a new Application and pay new submission fees, and the new Application shall be subject to all ordinances then in effect.

(Amended by Ord. No. 06-22)

15-1 -15. PENALTIES.

Any Person, firm, partnership, or corporation, and the principals or Agents thereof violating or causing the violation of this LMC shall be guilty of a Class AC@ misdemeanor and punished upon conviction by a fine and/or imprisonment described in the current Park City Criminal Code. In addition, the City shall be entitled to bring a civil action to enjoin and/or abate the continuation of the violation.

Private citizens of Park City or Property Owners have the right to file actions to enjoin the continuation of a violation affecting their interests, provided that the plaintiff in such action gives notice of the action to the City Recorder prior to filing the action.

15-1 -16. LICENSING.

Licenses or permits issued in violation of this LMC are null and void.

15-1 -17. VESTING.

(A) An Applicant is entitled to approval of a land Use Application if the Application conforms to the requirements of an

applicable land Use ordinance in effect when a Complete Application is submitted and all fees have been paid, unless:

(1) the land Use authority, on the record, finds that a compelling, countervailing public interest would be jeopardized by approving the Application; or

(2) in the manner provided by local ordinance and before the Application is submitted, the municipality has formally initiated proceedings to amend its ordinances in a manner that would prohibit approval of the Application as submitted.

(B) The municipality shall process an Application without regard to proceedings initiated to amend the municipality's ordinances if:

(1) 180 days have passed since the proceedings were initiated; and

(2) the proceedings have not resulted in an enactment that prohibits approval of the Application as submitted.

(C) An Application for a land Use approval is considered submitted and complete when the Application is provided in a form that complies with the requirements of applicable ordinances and all applicable fees have been paid.

(D) The continuing validity of an approval of a land Use Application is conditioned upon the Applicant proceeding

after approval to implement the approval with reasonable diligence.

(B) A municipality is bound by the terms and standards of applicable land Use ordinances and shall comply with mandatory provisions of those ordinances.

(Amended by Ord. No. 06-22)

(G) **BURDEN OF PROOF AND STANDARD OF REVIEW.** The appeal authority shall act in a quasi-judicial manner. The appellant has the burden of proving that the land Use authority erred. Except for appeals to the Board of Adjustment, the appeal authority shall review factual matters de novo and it shall determine the correctness of a decision of the land Use authority in its interpretation and application of the land Use ordinance. Appeals to the Board of Adjustment will review factual matters for correctness and determine the correctness of a decision of the land Use authority in its interpretation and application of the land Use ordinance. The scope of review of the Board of Adjustment is limited to issues brought to the land Use authority below.

(H) **WRITTEN FINDINGS REQUIRED.** The appellate body shall direct staff to prepare detailed written:

- (2) The City Recorder shall notify the Owner of the appeal date. The City Recorder shall obtain the findings, conclusions and all other pertinent information from the Planning Department and shall transmit them to the Council.

City Council review of petitions of appeal shall be limited to consideration of only those matters raised by the petition(s), unless the Council by motion, enlarges the scope of the

appeal to accept information on other matters.

- (4) Staff must prepare written findings within fifteen (15) working days of the City Council vote on the matter.

(J) **CITY COUNCIL CALL-UP.**

Within fifteen (15) calendar days of Final Action on any project, the City Council, on its own motion, may call up any Final Action taken by the Planning Commission or Planning Director for review by the Council. Call-ups involving City Development may be heard by the Board of Adjustment at the City Council's request.

Deleted: up

The call-up shall require the majority vote of the Council. Notice of the call-up shall be given to the Chairman of the Commission and/or Planning Director by the Recorder, together with the date set by the Council for consideration of the merits of the matter. The Recorder shall also provide notice as required by Section 15-1-12 herein. In calling a matter up, the Council may limit the scope of the call-up hearing to certain issues, and need not take public input at the hearing. The City Council, with the consultation of the Applicant, shall set a date for the call-up. The City Recorder shall notify the Applicant of the call-up date. The City Recorder shall obtain the findings, and all other pertinent information and transmit them to the Council.

(N) **RECONSIDERATION.** The City Council, and any Board or Commission, may reconsider at any time any legislative decision upon an affirmative vote of a majority of that body. The City Council, and any Board or Commission, may reconsider any quasi-judicial decision upon an affirmative vote of a majority of that body at any time prior to Final Action. Any action taken by the deciding body shall not be reconsidered or rescinded at a special meeting unless the number of members of

the deciding body present at the special meeting is equal to or greater than the number of members present at the meeting when the action was approved.

15-1 -19. CONSTITUTIONAL TAKINGS REVIEW AND APPEAL.

In order to promote the protection of private Property rights and to prevent the physical taking or exaction of private Property without just compensation, the City Council and all Commissions and Boards shall adhere to the following before authorizing the seizure or exaction of Property:

(A) **TAKINGS REVIEW PROCEDURE.** Prior to any proposed action to exact or seize Property by the City, the City Attorney shall review the proposed action to determine if a constitutional taking requiring "just compensation" would occur. The City Attorney shall review all such matters pursuant to the guidelines established in subsection (B) below. Upon identifying a possible constitutional taking, the City Attorney shall, in a confidential, protected writing, inform the Council, commission or board of the possible consequences of its action. This opinion shall be advisory only. No liability shall be attributed to the City for failure to follow the recommendation of the City Attorney.

Deleted: (N) **FINALITY OF ACTION.** Final Action occurs when the deciding body has adopted and executed written findings of fact and conclusions of law.¶

Deleted: O

(B) **TAKINGS GUIDELINES.** The City Attorney shall review whether the action constitutes a constitutional taking under the Fifth or Fourteenth Amendments to the Constitution of the United States, or under Article I, Section 22 of the Utah Constitution. The City Attorney shall determine whether the proposed action bears an essential nexus to a legitimate governmental interest and whether the action is roughly proportionate and reasonably related to the legitimate governmental interest. The City Attorney shall also determine whether the action deprives the private Property Owner of all reasonable Use of the Property. These guidelines are advisory only and shall not expand nor limit the scope of the City's liability for a constitutional taking.

(C) **APPEAL.** Any Owner of private Property who believes that his/her Property is proposed to be "taken" by an otherwise Final Action of the City may appeal the City's decision to the Takings Appeal Board within thirty (30) days after the decision is made. The appeal must be filed in writing with the City Recorder. The Takings Appeal Board shall hear and approve and remand or reject the appeal within fourteen (14) calendar days after the appeal is filed. The Takings Appeal Board, with advice from the City Attorney, shall review the appeal pursuant to the guidelines in subsection (B) herein. The decision of the Takings Appeal Board shall be in writing and a copy given to the appellant and to the City Council, Commission or Board that took the initial action. The Takings Appeal Board's rejection of an Appeal constitutes exhaustion of administrative remedies

rendering the matter suitable for appeal to a court of competent jurisdiction.

(D) **TAKINGS APPEAL BOARD.** There is hereby created a three (3) member Takings Appeal Board. The City Manager shall appoint three (3) current members of the Board of Adjustment to serve on the Takings Appeal Board. If, at any time, three (3) members of the Board of Adjustment cannot meet to satisfy the time requirements stated in subsection (C), the City Manager shall appoint a member or sufficient members to fill the vacancies.

15-1 -20. EXACTIONS.

Exaction or exactions may be imposed on Development proposed in a land Use Application if:

(A) An essential link exists between a legitimate governmental interest and each exaction; and

(B) Each exaction is roughly proportionate, both in nature and extent, to the impact of the proposed Development.

15-2.1-3. LOT AND SITE REQUIREMENTS.

Except as may otherwise be provided in this Code, no Building Permit shall be issued for a Lot unless such Lot has the Area, width, and depth as required, and Frontage on a Street shown as a City Street on the Streets Master Plan, or on a private easement connecting the Lot to a Street shown on the Streets Master Plan.

Minimum Lot and Site requirements are as follows:

(A) **LOT SIZE.** The minimum Lot Area is 3,750 square feet. The minimum width of a Lot is thirty-five feet (35'), measured fifteen feet (15') back from the Front Lot Line. In the case of unusual Lot configurations, Lot width measurements shall be determined by the Planning Director

(B) **BUILDING ENVELOPE (HRL DISTRICT).** The Building Pad, Building Footprint, and height restrictions define the maximum Building Envelope in which all Development must occur, with exceptions as allowed by Section 15-2.1-3(C).

(C) **BUILDING PAD (HRL DISTRICT).** The Building Pad is the Lot Area minus required Front, Rear and Side Yard Areas.

- (1) The Building Footprint must be within the Building Pad. The remainder of the Building Pad must be open and free of any other Structure except:

- (a) Porches or decks, with or without roofs;
- (b) At Grade patios;

(2) Exceptions to the Building Pad Area, excluding Bay Windows, are not included in the Building Footprint calculations, and are subject to Planning Department approval based on a determination that the proposed exceptions result in a design that:

- (a) provides increased architectural interest consistent with the Historic District Design Guidelines;
- (b) maintains the intent of this section to provide horizontal and vertical Building articulation.

on a Lot, or combination of Lots, not exceeding 18,750 square feet in Lot Area, shall be calculated according to the following formula for Building Footprint, illustrated in Table 15-2.1~~2~~. The maximum Building Footprint for any Structure located on a Lot or combination of Lots, exceeding 18,750 square feet in Lot Area, shall be 4,500 square feet; with an exemption allowance of 400 square feet per dwelling unit for garage floor area. A Conditional Use Permit is required for all Structures with a proposed footprint of greater than 3,500 square feet.

(D) **BUILDING FOOTPRINT (HRL DISTRICT)**. The maximum Building Footprint of any Structure shall be located

$$\text{MAXIMUM FP} = (A/2) \times 0.9^{A/1875}$$

Where FP= maximum Building Footprint and A= Lot Area.

Example: 3,750 sq. ft. Lot: $(3,750/2) \times 0.9^{(3750/1875)} = 1,875 \times 0.81 = 1,519 \text{ sq. ft.}$

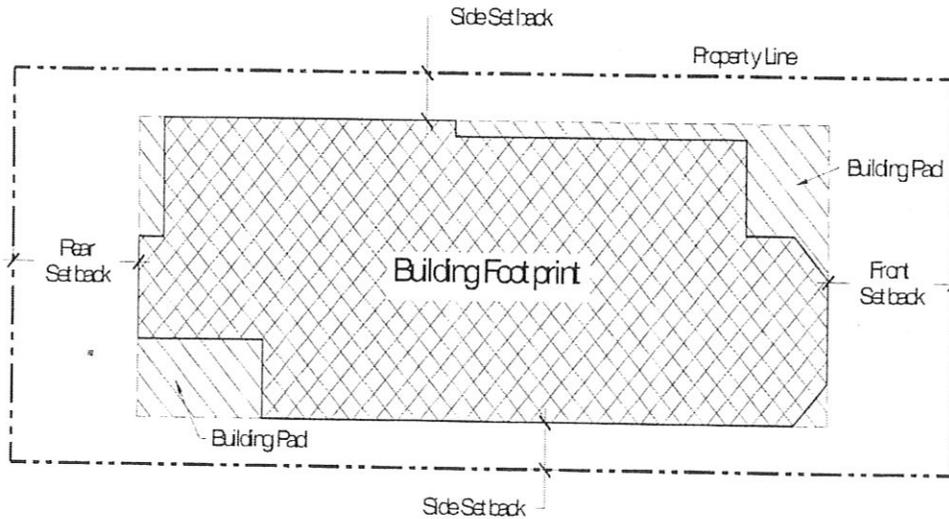

See the following Table 15-2.1. for a schedule equivalent of this formula.

(K) **CLEAR VIEW OF INTERSECTION.** No visual obstruction in excess of two feet (2') in height above road Grade shall be placed on any Corner Lot within the Site Distance Triangle. A reasonable number of trees may be allowed, if pruned high enough to permit automobile drivers an unobstructed view. This provision must not require changes in the Natural Grade on the Site.

(Amended by Ord. Nos. 06-56; 09-10)

15-2.1-4. EXISTING HISTORIC STRUCTURES.

Historic Structures that do not comply with Building Setbacks, Off-Street parking, and driveway location standards are valid Non-Complying Structures. Additions to Historic Structures are exempt from Off-Street parking requirements provided the addition

⁸ Applies only to Lots with a Side Yard of five feet (5') or greater.

does not create a Lockout Unit or Accessory Apartment. Additions must comply with Building Setbacks, Building Footprint, driveway location standards and Building Height.

(A) **EXCEPTION.** In order to achieve new construction consistent with the Historic District Design Guidelines, the Planning Commission may grant an exception to the Building Setback and driveway location standards for additions to Historic Buildings:

- (1) Upon approval of a Conditional Use permit,
- (2) When the scale of the addition or driveway is Compatible with the Historic Structure,
- (3) When the addition complies with all other provisions of this Chapter, and
- (4) When the addition complies with the Uniform Building and Fire Codes.

15-2.1-5. BUILDING HEIGHT.

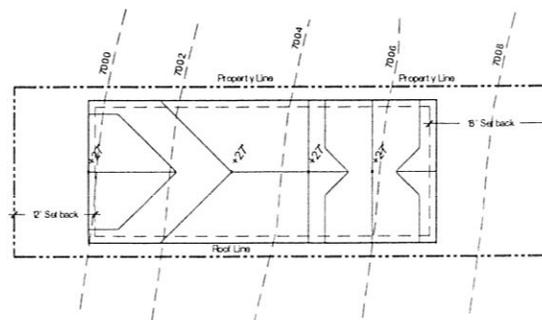

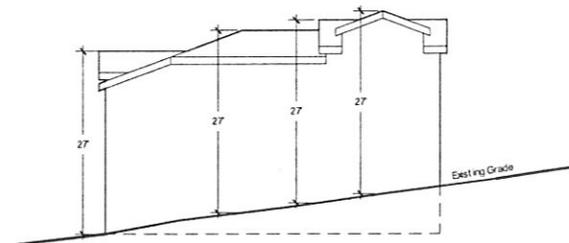

No Structure shall be erected to a height greater than twenty-seven feet (27') from Existing Grade. This is the Zone Height. Final Grade must be within four vertical feet (4') of Existing Grade around the periphery of the Structure, except for the placement of approved window wells, emergency egress, and a garage entrance. The following height requirement must be met:

(A) A Structure may have a maximum of

three (3) stories. A basement counts as a Story within this zone.

(B) A ten foot (10') minimum horizontal step in the downhill façade is required for a third (3rd) Story of a Structure unless the First Story is located completely under the finish grade on all sides of the Structure. On a Structure in which the First Story is located completely under finish grade, a side or rear entrance into a garage which is not visible from the front façade or Street Right-of-Way is allowed.

(C) **ROOF PITCH.** Roof pitch must be between seven:twelve (7:12) and twelve:twelve (12:12). A Green Roof or a roof which is not part of the primary roof design may be below the required 7:12 pitch.

(D) **BUILDING HEIGHT EXCEPTIONS.** The following height exceptions apply:

(1) Antennas, chimneys, flues, vents, or similar Structures, may extend up to five feet (5') above the highest point of the Building to comply with International Building Code (IBC) requirements.

(2) Water towers, mechanical equipment, and associated Screening, when Screened or enclosed, may extend up to five feet (5') above the height of the Building.

(3) **ELEVATOR ACCESS.** The Planning Director may allow additional height to allow for an elevator compliant with American Disability Act (ADA) standards. The Applicant must verify the following:

(a) The proposed height exception is only for the Area of the elevator. No increase in square footage of the Building is being achieved.

(b) The proposed option is the only feasible option for the elevator on the Site.

(c) The proposed elevator and floor plans comply with the American Disability Act (ADA) standards.

(4) **GARAGE ON DOWNHILL LOT.** The Planning Director may allow additional height on a downhill Lot to accommodate a single car garage in a tandem configuration. The depth of the

garage may not exceed the minimum depth for an internal Parking Space as dimensioned within this Code, Section 15-3. Additional width may be utilized only to accommodate circulation and an ADA elevator. The additional height may not exceed thirty-five feet (35') from Existing Grade.

(Amended by Ord. Nos. 06-56; 09-10; 09-14)

15-2.1-6. DEVELOPMENT ON STEEP SLOPES.

Development on Steep Slopes must be environmentally sensitive to hillside Areas, carefully planned to mitigate adverse effects on neighboring land and Improvements, and consistent with the Historic District Design Guidelines.

(A) **ALLOWED USE.** An allowed residential Structure and/or Access to said Structure located upon an existing Slope of thirty percent (30%) or greater must not exceed a total square footage of one thousand square feet (1,000 sq. ft.) including the garage.

(B) **CONDITIONAL USE.** A Conditional Use permit is required for any Structure in excess of one thousand square feet (1000 sq. ft.) if said Structure and/or Access is located upon any existing Slope of thirty percent (30%) or greater.

For the purpose of measuring Slope, the measurement shall include a minimum horizontal distance of fifteen feet (15') measured perpendicular to the contour lines

on the certified topographic survey. The measurement shall quantify the steepest Slope within the Building Footprint and driveway.

The Planning ~~Department Director~~ shall review all Conditional Use permit Applications and forward a recommendation to the Planning Commission. The Planning Commission ~~may shall~~ review all Conditional Use permit Applications as Consent Calendar items ~~unless the Planning Commission removes the item from the Consent Agenda and sets the matter for a Public Hearing~~. Conditional Use permit Applications shall be subject to the following criteria:

- (1) **LOCATION OF DEVELOPMENT.** Development is located and designed to reduce visual and environmental impacts of the Structure.
- (2) **VISUAL ANALYSIS.** The Applicant must provide the Planning Department with a visual analysis of the project from key Vantage Points:
 - (a) To determine potential impacts of the proposed Access, and Building mass and design; and
 - (b) To identify the potential for Screening, Slope stabilization, erosion mitigation, vegetation protection, and other design opportunities.

(3) **ACCESS.** Access points and driveways must be designed to minimize Grading of the natural topography and to reduce overall Building scale. Common driveways and Parking Areas, and side Access to garages are strongly encouraged, where feasible.

(4) **TERRACING.** The project may include terraced retaining Structures if necessary to regain Natural Grade.

(5) **BUILDING LOCATION.** Buildings, Access, and infrastructure must be located to minimize cut and fill that would alter the perceived natural topography of the Site. The Site design and Building Footprint must coordinate with adjacent Properties to maximize opportunities for open Areas and preservation of natural vegetation, to minimize driveway and Parking Areas, and to provide variation of the Front Yard.

(6) **BUILDING FORM AND SCALE.** Where Building masses orient against the Lot's existing contours, the Structures must be stepped with the Grade and broken into a series of individual smaller components that are Compatible with the District. Low profile Buildings that orient with existing contours are strongly encouraged. The garage must be subordinate in design to the main Building. In order to decrease the perceived bulk of the Main Building, the Planning Director and/or Planning Commission may

require a garage separate from the main Structure or no garage.

(7) **SETBACKS.** The Planning Director and/or Planning Commission may require an increase in one or more Setbacks to minimize the creation of a “wall effect” along the Street front and/or the Rear Lot Line. The Setback variation will be a function of the Site constraints, proposed Building scale, and Setbacks on adjacent Structures.

(8) **DWELLING VOLUME.** The maximum volume of any Structure is a function of the Lot size, Building Height, Setbacks, and provisions set forth in this Chapter. The Planning Director and/or Planning Commission may further limit the volume of a proposed Structure to minimize its visual mass and/or to mitigate differences in scale between a proposed Structure and existing Structures.

(9) **BUILDING HEIGHT (STEEP SLOPE).** The Zone Height in the HRL District is twenty-seven feet (27') and is restricted as stated above in Section 15-2.1-5. The Planning Director and/or Planning Commission may require a reduction in Building Height for all, or portions, of a proposed Structure to minimize its visual mass and/or to mitigate differences in scale between a proposed Structure and existing residential Structures.

(C) **EXCEPTION.** In conjunction with

a Subdivision or Plat Amendment, several Property Owners have undergone a review process comparable to that listed in the Conditional Use Section B above and the City does not seek to subject those Owners to additional Planning Commission review. Therefore, at the request of the Owner, the Planning Director may exempt an allowed residential Structure in excess of one thousand square feet (1,000 sq. ft.) from the Conditional Use process upon finding the following:

(1) The Lot resulted from a Subdivision or Plat Amendment after January 1, 1995;

(2) The conditions of approval or required Plat notes reflect a maximum house size or Building Footprint; and

(3) The conditions of approval or required Plat notes include a requirement for Planning, Engineering, and Building Department review of Grading, excavation, erosion, or similar criteria as found in the foregoing Section B, prior to Building Permit issuance.

The findings shall be in writing, filed with the Owner and City Planning Department, and shall state that the maximum house size and all other applicable regulations continue to apply, and the Owner is not vested for the maximum.

(Amended by Ord. Nos. 06-56; 09-10; 09-14)

15-2.1-7. PARKING REGULATIONS.

(A) Tandem Parking is allowed in the Historic District.

(B) Common driveways are allowed along shared Side Lot Lines to provide Access to Parking in the rear of the Main Building or below Grade if both Properties are deed restricted to allow for the perpetual Use of the shared drive.

(C) Common Parking Structures are allowed as a Conditional Use where it facilitates:

(1) the Development of individual Buildings that more closely conform to the scale of Historic Structures in the District; and

(2) the reduction, mitigation or elimination of garage doors at the Street edge.

(D) A common Parking Structure may occupy below Grade Side Yards between participating Developments if the Structure maintains all Setbacks above Grade. Common Parking Structures are subject to a Conditional Use review, Chapter 15-1-10.

(E) Driveways between Structures are allowed in order to eliminate garage doors facing the Street, to remove cars from on-Street parking, and to reduce paved Areas, provided the driveway leads to an approved garage or Parking Area.

(F) Turning radii are subject to review

by the City Engineer as to function and design.

(G) See Section 15-3 Off Street Parking for additional parking requirements.

(Amended by Ord. Nos. 06-56; 09-10)

15-2.1-8. ARCHITECTURAL REVIEW.

(A) **REVIEW.** Prior to the issuance of a Building Permit, including footing and foundation, for any Conditional or Allowed Use within this District, the Planning Department shall review the proposed plans for compliance with Historic District Design Guidelines ~~Chapter 15-5~~.

(B) **NOTICE TO ADJACENT PROPERTY OWNERS.** When the Planning Department determines that proposed Development plans comply with the Historic District Design Guidelines, the Staff shall post the Property and provide written notice to Owners immediately adjacent to the Property directly abutting the Property and across Public Streets and/or Rights-of-Way.

The notice shall state that the Planning Department staff has made a preliminary determination finding that the proposed plans comply with the Historic District Design Guidelines, Chapter 15-5.

(C) **APPEALS.** The posting and notice shall include the location and description of the proposed Development project and shall establish a ten (10) day period to appeal the Staff's determination of compliance to the Historic Preservation Board. Appeals must

be written and shall contain the name, address, and telephone number of the petitioner, his or her relationship to the project and the Design Guidelines or code provisions violated by the Staff determination.

(Amended by Ord. No. 06-56)

15-2.1-9. VEGETATION PROTECTION.

The Property Owner must protect Significant Vegetation during any Development activity. Significant Vegetation includes large trees six inches (6") in diameter or greater measured four and one-half feet (4 ½ ') above the ground, groves of smaller trees, or clumps of oak and maple covering an Area fifty square feet (50 sq. ft.) or more measured at the drip line.

Development plans must show all Significant Vegetation within twenty feet (20') of a proposed Development. The Property Owner must demonstrate the health and viability of all large trees through a certified arborist. The Planning Director shall determine the Limits of Disturbance and may require mitigation for loss of Significant Vegetation consistent with Landscape Criteria in LMC Chapter 15-3-3 and Title 14.

(Amended by Ord. No. 06-56)

Except as may otherwise be provided in this Code, no Building Permit shall be issued for a Lot unless such Lot has the Area, width, and depth as required, and Frontage on a Street shown as a private or Public Street on the Streets Master Plan, or on a private easement connecting the Lot to a Street shown on the Streets Master Plan.

Minimum Lot and Site requirements are as follows:

(A) **LOT SIZE.** The minimum Lot Area is 1,875 square feet for a Single Family Dwelling and 3,750 square feet for a Duplex. The minimum width of a Lot is twenty- five feet (25'), measured fifteen feet (15') back from the Front Lot Line. In the case of unusual Lot configurations, Lot width measurements shall be determined by the Planning Director.

(B) **BUILDING ENVELOPE (HR-1 DISTRICT).** The Building Pad, Building

⁹ See LMC Chapter 15-4-2, Fences and Walls

Footprint and height restrictions define the maximum Building envelope within which all Development must occur, with exceptions as allowed by Section 15-2.2-3(C).

(1) — The Building Footprint must be within the Building Pad. The Building Pad must be open and free of any other Structure except:

(a) — Porches or decks, with or without roofs;

(b) — At Grade patios;

(c) — Upper level decks, with or without roofs;

(d) — Bay Windows;

(e) — Chimneys;

(f) — Sidewalks, pathways, and steps;

(g) — Screened hot tubs; and

(h) — Landscaping.

(2) — Exceptions to the Building Pad Area are subject to Planning Director approval based on a determination that the proposed exceptions result in a design that:

(a) — provides increased architectural interest consistent with the Historic District Design Guidelines;

(b) — maintains the intent of this section to provide horizontal and vertical Building articulation.

(C) **BUILDING PAD (HR-1 DISTRICT)**. The Building Pad is the Lot Area minus required Front, Rear, and Side Yard Areas.

(1) The Building Footprint must be within the Building Pad. The Building Pad must be open and free of any other Structure except:

(a) Porches or decks, with or without roofs;

(b) At Grade patios;

(c) Upper level decks, with or without roofs;

(d) Bay Windows;

(e) Chimneys;

(f) Sidewalks, pathways, and steps;

(g) Screened hot tubs; and

(h) Landscaping.

(2) Exceptions to the Building Pad Area, excluding Bay Windows, are not included in the Building Footprint calculations, and are subject to Planning Director approval based on a determination

that the proposed exceptions result in a design that:

(a) provides increased architectural interest consistent with the Historic District Design Guidelines;

(b) maintains the intent of this section to provide horizontal and vertical Building articulation.

(D) **BUILDING FOOTPRINT (HR-1 DISTRICT)**. The maximum Building Footprint of any Structure located on a Lot or combination of Lots, not exceeding 18,750 square feet in Lot Area, shall be calculated according to the following formula for Building Footprint, illustrated in Table 15-2.2. The maximum Building Footprint for any Structure located on a Lot or combination of Lots, exceeding 18,750 square feet in Lot Area, shall be 4,500 square feet; with an exemption allowance of 400 square feet, per Dwelling Unit, for garage floor area. A Conditional Use permit is required for all Structures with a proposed footprint of greater than 3,500 square feet.

$$\text{MAXIMUM FP} = (A/2) \times 0.9^{A/1875}$$

Where FP= maximum Building Footprint and A= Lot Area.

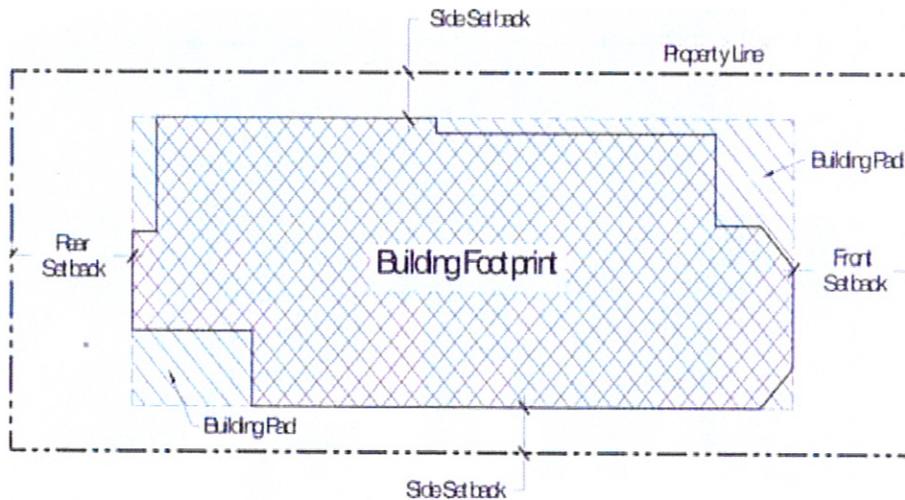

Example: 3,750 sq. ft. lot: $(3,750/2) \times 0.9^{(3750/1875)} = 1,875 \times 0.81 = 1,519 \text{ sq. ft.}$

See the following Table 15-2.2. for a schedule equivalent of this formula.

(F) **FRONT YARD EXCEPTIONS.**
The Front Yard must be open and free of any Structure except:

(1) Fences or walls not more than four feet (4') in height, or as permitted in Section 15-4-2, Fences and Walls. On Corner Lots, Fences more than three feet (3') in height are prohibited within twenty-five feet (25') of the intersection, at back of curb.

(2) Uncovered steps leading to the Main Building; provided the steps are not more than four feet (4') in height from Final Grade, not including any required handrail, and do not cause any danger or hazard to traffic by obstructing the view of the Street or intersection.

(3) Decks, porches, or Bay Windows not more than ten feet (10') wide, projecting not more than three feet (3') into the Front Yard.

(4) Roof overhangs, eaves or cornices projecting not more than **two-three feet (2-3')** into the Front Yard.

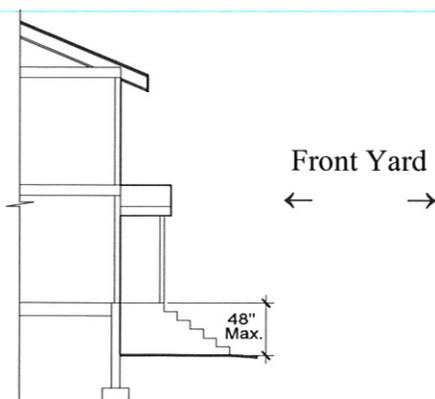

(5) Sidewalks and pathways.

(J) **SNOW RELEASE**. Site plans and Building designs must resolve snow release issues to the satisfaction of the Chief Building Official.

(K) **CLEAR VIEW OF INTERSECTION**. No visual obstruction in excess of two feet (2') in height above road Grade shall be placed on any Corner Lot within the Site Distance Triangle. A reasonable number of trees may be allowed, if pruned high enough to permit automobile drivers an unobstructed view. This provision must not require changes in the Natural Grade on the Site.

15-2.2-4. EXISTING HISTORIC STRUCTURES.

Historic Structures that do not comply with Building Setbacks, Off-Street parking, and driveway location standards are valid Complying Structures. Additions to Historic Structures are exempt from Off-Street

parking requirements provided the addition does not create a Lockout Unit or an Accessory Apartment. Additions must comply with Building Setbacks, Building Footprint, driveway location standards and Building Height.

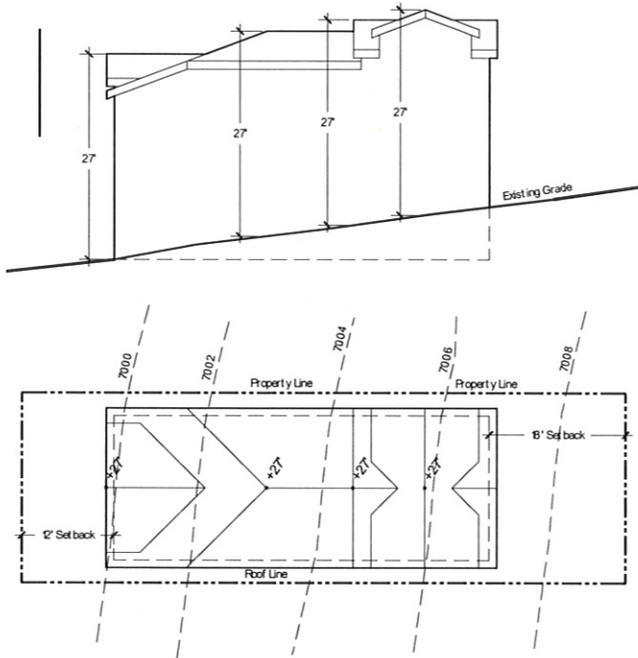

(A) **EXCEPTION**. In order to achieve new construction consistent with the Historic District Design Guidelines, the Planning Commission may grant an exception to the Building Setback and driveway location standards for additions to Historic Buildings:

- (1) Upon approval of a Conditional Use permit,
- (2) When the scale of the addition or driveway is Compatible with the Historic Structure,
- (3) When the addition complies with all other provisions of this Chapter, and
- (4) When the addition complies with the International Building and Fire Codes.

(Amended by Ord. No. 06-56)

15-2.2-5. BUILDING HEIGHT.

No Structure shall be erected to a height greater than twenty-seven feet (27') from Existing Grade. This is the Zone Height. In cases where due to excavation Final Grade is lower than Existing Grade, Building Height shall be measured from Final Grade around the perimeter of the Building. This measure shall not include approved window wells.

(A) BUILDING HEIGHT EXCEPTIONS. The following height exceptions apply:

- (1) Antennas, chimneys, flues, vents, or similar Structures, may extend up to five feet (5') above the highest point of the Building to comply with International Building Code (IBC) requirements.
- (2) Water towers, mechanical equipment, and associated Screening, when enclosed or Screened, may extend up to five feet (5') above the height of the Building.
- (3) To accommodate a roof form consistent with the Historic District Design Guidelines, the Planning Director may grant additional Building Height provided that no

more than twenty percent (20%) of the roof ridge line exceeds the height requirement and the plans comply with Height Exception Criteria in Section 15-2.2-6(B) (10) (a-j).

(Amended by Ord. No. 06-56)

15-2.2-6. DEVELOPMENT ON STEEP SLOPES.

Development on Steep Slopes must be environmentally sensitive to hillside Areas, carefully planned to mitigate adverse effects on neighboring land and Improvements, and consistent with the Historic District Design Guidelines.

- (A) **ALLOWED USE.** An allowed residential Structure and/or Access to said Structure located upon an existing Slope of thirty percent (30%) or greater must not exceed a total square footage of one thousand square feet (1,000 sq. ft.) including the garage.
- (B) **CONDITIONAL USE.** A Conditional Use permit is required for any Structure in excess of one thousand square feet (1,000 sq. ft.) if said Structure and/or Access is located upon any existing Slope of thirty percent (30%) or greater.

The Planning Department shall review all Conditional Use permit Applications and forward a recommendation to the Planning Commission. The Planning Commission shall may review all Conditional Use permit Applications as Consent Calendar items; unless the Planning Commission removes the item from the Consent Agenda and sets the matter for a Public Hearing.

Conditional Use permit Applications shall be subject to the following criteria:

(1) **LOCATION OF DEVELOPMENT.** Development is located and designed to reduce visual and environmental impacts of the Structure.

(2) **VISUAL ANALYSIS.** The Applicant must provide the Planning Department with a visual analysis of the project from key Vantage Points:

(a) To determine potential impacts of the proposed Access, and Building mass and design; and

(b) To identify the potential for Screening, Slope stabilization, erosion mitigation, vegetation protection, and other design opportunities.

(3) **ACCESS.** Access points and driveways must be designed to minimize Grading of the natural topography and to reduce overall Building scale. Common driveways and Parking Areas, and side Access to garages are strongly encouraged.

(4) **TERRACING.** The project may include terraced retaining Structures if necessary to regain Natural Grade.

(5) **BUILDING LOCATION.** Buildings, Access, and infrastructure must be located to minimize cut and fill that would alter the perceived

natural topography of the Site. The Site design and Building Footprint must coordinate with adjacent properties to maximize opportunities for open Areas and preservation of natural vegetation, to minimize driveway and Parking Areas, and to provide variation of the Front Yard.

(6) **BUILDING FORM AND SCALE.** Where Building masses orient against the Lot's existing contours, the Structures must be stepped with the Grade and broken into a series of individual smaller components that are Compatible with the District. Low profile Buildings that orient with existing contours are strongly encouraged. The garage must be subordinate in design to the main Building. In order to decrease the perceived bulk of the Main Building, the Planning Director and/or Planning Commission may require a garage separate from the main Structure or no garage.

(7) **SETBACKS.** The Planning Department and/or Planning Commission may require an increase in one or more Setbacks to minimize the creation of a "wall effect" along the Street front and/or the Rear Lot Line. The Setback variation will be a function of the Site constraints, proposed Building scale, and Setbacks on adjacent Structures.

(8) **DWELLING VOLUME.** The maximum volume of any Structure is a function of the Lot size, Building Height, Setbacks, and provisions set forth in this Chapter.

The Planning Department and/or Planning Commission may further limit the volume of a proposed Structure to minimize its visual mass and/or to mitigate differences in scale between a proposed Structure and existing Structures.

(9) **BUILDING HEIGHT (STEEP SLOPE).** The maximum Building Height in the HR-1 District is twenty-seven feet (27'). The Planning Department and/or Planning Commission may require a reduction in Building Height for all, or portions, of a proposed Structure to minimize its visual mass and/or to mitigate differences in scale between a proposed Structure and existing residential Structures.

(10) **HEIGHT EXCEPTIONS (STEEP SLOPE).** The Planning Department **on Allowed Steep Slope Use and/or the Planning Commission as part of a Conditional Steep Slope Use** may grant a Building Height exception for a portion or portions of a proposed Structure if the Applicant proves compliance with each of the following criteria:

- (a) The height exception does not result in a height in excess of forty feet (40').
- (b) The proposed Building includes horizontal and vertical step backs to achieve increased Building articulation and Compatibility. The Planning **Director or Planning**

Commission may refer the proposal to the Historic Preservation Board, prior to taking action, for a recommendation on the extent to which the proposed articulation and design are consistent with the Historic District Design Guidelines.

(c) The proposed design and articulation of the Building mass mitigates the project's visual impacts and differences in scale between the proposed Structure and nearby residential Structures.

(d) Snow release issues are resolved to the satisfaction of the Chief Building Official.

(e) A height reduction in other portions of the Building and/or increased Setbacks are incorporated.

(f) The height exception is not granted primarily to create additional **bBuilding aArea**.

(g) The height exception enhances the Building's Compatibility with residential Structures by adding architectural interest to the garage element, front facade, porch, or other Building element.

(h) The height exception
