Description:

POLICE Traffic Enforcement is simply stated; the enforcement of traffic laws in order to reduce traffic collisions, their resulting injuries, and to facilitate and expedite the flow of vehicular and pedestrian traffic. A focus on traffic enforcement allows us to meet the many community requests that we have for neighborhood enforcement, school zone enforcement and overall community needs.

Council Goal:

039 Thriving Mountain Town

Desired Outcome:

Criteria for Meeting Desired Outcome

Transportation: Congestion Reduction, Local and Regional Overall traffic enforcement is essential to providing a safe community environment. We are able to reduce neighborhood traffic concerns and reduce the number of traffic accidents involving vehicles and pedestrians.

Section 1: Scope

Section 3: Basic Program Attributes

Community Served

Program benefits/serves the ENTIRE Community and adds to their quality of life

Reliance on City

City provides program and program is currently being offered by another governmental, non-profit or civic agency

Mandated

Program is required by Code, ordinance, resolution or policy OR to fulfill franchise or contractual agreement

Section 4: Cost Savings / Innovation / Collaboration

POLICE Specifically focusing on areas of concern and complaint allows us to direct traffic enforcement efforts thus reducing a hit and miss approach. Proper planning and staffing provides effective traffic enforcement efforts.

Section 5: Consequences of Funding Proposal at Lower Level

POLICE Reducing funding in this area would prohibit us from providing directed traffic enforcement. We would be handicapped in our ability to meet the many requests for enforcement that we receive from the community. We would also quickly see and upward trend in traffic related accidents in certain areas of the city.

Section 4: Cost Savings / Innovation / Collaboration

TRANSPORTATION OPER

Our collaborative transit operation with Summit County and Utah Transit Authority eliminates capital and administrative duplication and significantly reduces management and overhead costs for all involved agencies and the taxpayers that support them.

Section 5: Consequences of Funding Proposal at Lower Level

TRANSPORTATION OPER

Staff does not recommend any reduction in funding. However, should Council determine to do so, this would require a reduction in routes, hours or days of service. If directed staff will return with a prioritized list of service reductions.

Section 5: Consequences of Funding Proposal at Lower Level

TRANSPORTATION OPER The current level of funding for this program is driven by the demand the City must serve in order to remain compliant with the American with Disabilities Act. Reductions in cost in this service would result in non-compliant service that would likely lead to Federal Transit Administration sanctions and expose the City to potential litigation by affected groups.

Description:

STREET MAINTENANCE Program includes snow plowing, hauling, blowing, and widening for 130 lane miles of roadway and multiple miles of sidewalks and bike paths. Challenges to the program are loss of on-site and remote snow storage, expanded service for sidewalks, new development, increase in special events and increasing community expectations. The Streets Department provides a variety of services, and snow removal techniques for this program. It requires that snow removal services be performed through priority sequencing 24/7 in all areas of the community. Funding for PC Heights. PC Heights has now reached 50% build out. With this milestone, the city is now obligated to provide maintenance. The maintenance program includes signs, pavement maintenance and snow removal services. For several years we anticipated that when PC Height's comes on line, it will trigger an additional plow operator for each of the four crews. These four crews are required to provide 24/7 coverage. In 2014, Park City and Summit County entered into a service agreement that provided winter plowing service to Richardson Flat Road. This agreement will terminate at the end of this winter season. We anticipate, as the Richardson Flat Park and ride becomes utilized more the need for higher winter service levels will be required to and from the parking lot. The streets snow removal has not increased in crew size in over 25 years. (Except for a short time during the 2002 Olympics) Adding an additional plow operator to the crews will provide the necessary resources to plow PC Heights and assume winter maintenance responsibility of Richardson Flat Road. With the additional plow operator on each crew, it is expected that many of our service level III streets that are now fully developed and occupied will become Priority II streets, thus an overall increase in winter service as a result. Transit funded snow operations transfer: With the completion of the Iron Horse bus parking structure, Transit funded the snow removal on the parking deck including equipment rental and staff. As Richardson Flat Park and Ride lot became utilized, Transit funded all snow removal services that included loader rental and staff, most recently absorbed into this program is the temporary plowing if the Yard Lot. Kent Cashel wanted to maintain control of the program funding at the time. Then when Blake Fannesbeck took over Transit we continued with the same process. Now that Transit is undergoing a re-org, now might be the ideal time to clean this process up. This request transfers funding for the snow removal from the Transportation Department to the Street Maintenance fund. 1.5 FTE Seasonal Streets III (Grade 12, 1ST 14) \$88,500?Skid Steer Rental \$900 per month \$5,400.000 Large Loader Rental \$ 4,000 per month \$24,000

Section 4: Cost Savings / Innovation / Collaboration

STREET MAINTENANCE Cost Savings: The Streets Department continues expanding to incorporate more "Mini" hauls in the Downtown Business District. This saves money by removing snow in a more efficient and effective manner. Innovation: The Streets Department continually looks for creative ways to increase productivity, service levels, equipment availability and decrease equipment downtime through innovation. Recent examples include: additional snow blowing equipment and 4X4 plow trucks. Industry trends are to move toward environmental deicers, heated sidewalks and specialized snow melting equipment.

Section 5: Consequences of Funding Proposal at Lower Level

STREET MAINTENANCE The consequences of lowering the funding for this program include: Impacts to the health and Safety of our citizens and visitors, reduction in citizen and visitor safety, convenient travel, and an increase in accidents. There would also be an increase in citizen and business owner complaints due to established community expectations. Proposed LOS: Maintain Current LOS.

BLDG MAINT ADM	The Building Maintenance Department provides a variety of maintenance and support services for this program. It requires that event logistical support be performed in many areas of the community to ensure a smooth, successful event.
ECONOMY	The Economy Team oversees the coordination of all permitted Special Events. This includes taking events from the application process to the day of execution of the event. Special Events Department is responsible for working with an event to secure all the required permitting and works with various city departments to coordinate logistics to ensure that the all impacts of the event are properly mitigated.
POLICE	Hundreds of hours are spent in planning and staffing the various events that are held. Close and trusting relationships have been developed between staff and event planners/promoters. Special events are vital to the promotion and economy of Park City.
PARKS & CEMETERY	Logistical support for City-sponsored events, i.e. field preps, waste management, facility cleaning and enhanced snow removal. Challenges to the goal of this program are: Overall growth of events competing for resources due to increasing number and scale of events and organizer expectations.

Challenges to the goal of this program are: Overall growth of events, competing for resources due to increasing number and scale of events, and organizer expectations.

PARKING	Provides for enhanced parking management and enforcement levels during Sundance and Arts Fest.

Council Goal:

023 Thriving Mountain Town

Desired Outcome:

Criteria for Meeting Desired Outcome

Varied & Multi-Seasonal Event Offerings Special Events has been identified by Council as a high priority through Council's goals (Outcomes Area) and the strategic plan. The community has also expressed their desire for Special Events through Chamber Bureau, citizen requests and outside organizers. The Special Event program is a critical function to Park City's economic sustainability. Also, Special Event planning and staffing are essential for a safe and successful special event. Proper planning and staffing promotes a healthy event environment, which promotes Park City as a World Class Multi-seasonal Resort Community. Finally, Special Event transit services significantly reduce traffic congestion on all City streets and enable the movement of large numbers of people to event venues. Special Event Transit also reduces the need to expand roads and parking resources that would be required without strong transit support.

Section 4: Cost Savings / Innovation / Collaboration

BLDG MAINT ADM	The Building Maintenance Department continually looks for creative ways to increase efficiency through innovation. An example is the ability to provide separate access keys to buildings during large scale special events without compromising the City's overall security.
ICE FACILITY	Due to limited ice along with a short summer schedule, the ice arena has become more efficient with booking camps. The Figure Skating Camp and Pioneer Camp have worked together to allow for both camps to take place on the same week.
TRANSPORTATION OPER	Park City and Sundance collaborate on both traffic and transit planning year round to ensure the event runs as smoothly as possible. Transit's new GPS\AVL system have begun to revolutionize the way we operate our special event services by providing real time locations, real time passenger loads, origin\destination information, automatic stop announcements, and on-time performance reporting.
PARKING	Park City moved its parking enforcement operation from one being provided to the City by a third party contractor to an in-house operation. The objective of this move was to improve customer service while still maintaining effective compliance with parking regulations. Initial indications are the in-house program will prove very successful. Parking has added significant technology enhancements in the past year including pay-by-phone, on line citation appeals and citation payments, real time info available to enforcement officers in the field and automated license plate recognition systems all of these enhancements improve the level of customer service delivered.

Section 5: Consequences of Funding Proposal at Lower Level

ICE FACILITY	If funding is cut to this program, then the number of special events held would be reduced and the level of service provided to event planners would be reduced, which could impact overall satisfaction. In addition, revenues from ice rentals from events would be reduced.
FIELDS	
POLICE	Funding at a reduced level would create a reduced level of service, which would have a direct negative result on the success of any particular event.
TRANSPORTATION OPER	Staff does not recommend lower funding levels for this program. Should Council direct Staff to reduce expenses in the program, then days, hours and/or routes served during special events would need to be reduced. This reduction would impact the City's ability to support the major events served and result in increased congestion during those events.
PARKING	Staff does not recommend funding the program at a lower level than currently approved. Program revenues are sufficient to cover program costs. Current level of funding enables Parking Services to provide for a high level of customer service while maintaining reasonable parking regulation compliance.

Description:

PARKING The program administers and enforces regulation of 1316 parking spaces in the Main Street core. This includes the North and South Marsac lots, Sandridge lots, Flagpole lot, Galleria lot, top level of Gateway Garage, Swede Alley lots, China bridge Garage, Brew Pub Lot, Main Street, Heber Avenue and Park Avenue (Heber Ave to 9th St.). The program also administers and enforces the City's historic district residential permit zones located south of 12th Street and west of Main Street. The programs customer service desk at the Ironhorse Public Works Building issues approximately 325 employee permits each year, and 1000 residential permits each year. Parking Services processes an average of 9,500 citations per year (including Police parking citations issued throughout City limits) and the City's adjudicator reviews and rules on approximately 525 citation appeals (5.5% of citations issued) per year. This scenario includes staffing the parking enforcement program with City employees.

Council Goal:

076 Thriving Mountain Town

Desired Outcome:

Criteria for Meeting Desired Outcome

Transportation: Congestion Reduction, Local and Regional Parking is an essential component of the strategy to achieve Council's goal of an effective transportation system. The availability, convenience and pricing of parking play an important role in a traveler's mode choice. The City's parking strategy seeks to balance the availability of convenient parking while also promoting use of alternate modes of travel (pedestrian, bicycle, transit).

ECONOMY By maximizing efficiencies of existing staff resources, skills and talents, we've limited consulting service needs. Collaboration with the Chamber, through our Joint Venture, has allowed the Chamber to take lead on procuring studies on Event center & Financial impacts of events, leading to a more nimble and efficient procurement process. The Joint Venture budget was increased \$70k to pay the Chamber to market the St. Regis because we've estimated the St Regis generates \$125k in resort sales tax.

Section 5: Consequences of Funding Proposal at Lower Level

Description:

PC MARC The Recreation Department is responsible for all programs and scheduling that occurs on all the playing fields in Park City, both for recreationally-run programs as well as competitively run programs. The department also schedules all pavilion rentals and acts as a "field broker" for scheduling private tournaments on City fields.

PARKS & CEMETERY The Parks and Fields Maintenance Departments provide a variety of services, maintenance and tournament support for this program. It requires that Parks, Turf & Athletic Fields services and maintenance be performed in various City park areas of the community to ensure safe, high quality park facilities for citizens, visitors and park users.

Council Goal:

PC MARC Recreation: Staff works closely with Basin Recreation to ensure efficient scheduling for the right sport/event on the right field. We coordinate field resting and scheduling so no one facility gets overused.

PARKS & CEMETERY Collaboration: Being in the Public Works Division, the Parks and Fields Departments has a primary maintenance and field set-up function in supporting various events and Western Summit County recreation programs. Working collaboratively with other governmental agencies, departments, and the Recreation District has created efficiencies, which allows for greater productivity. The Parks / Fields Department continually looks for creative ways to increase environmental stewardship and water conservation.

Section 5: Consequences of Funding Proposal at Lower Level

PARKS & CEMETERY The consequences of lowering the funding for this program will drastically impact the quality of the fields and therefore affect our ability to meet the expectations of the program users. There would also be an increase in citizen and user group complaints due to established community expectations. Field users outside of recreation would not be able to schedule practice time and this would likely result in increased conflicts on the field.

Description:

PARKS & CEMETERY The Parks and Fields Maintenance Department provides a variety of services, maintenance and capital renewal for this program. It requires that Park Amenities & Infrastructure be maintained throughout town to ensure safe facilities. Items included in this program are: playgrounds, skate park, BMX park, field lighting, old town stairs, fencing, pavilions benches, and picnic tables. These items are maintained properly to protect these valuable assets. Challenges to the goal of this program are cost of maintaining aging infrastructure while the use of the facilities increases.

Section 4: Cost Savings / Innovation / Collaboration

PC MARC We collaborate closely with Basin Recreation in many areas. We make sure that we don't offer the same program at the same time or the same season. We allow the use of one another's facilities without compensation. For example we play our spring soccer league on their fields resulting in the parks department not having to "prep" as many fields for play. For wellness we have collaborated with various community partners to offer a lunch series where an expert comes in & presents on a particular topic to the community.

ICE FACILITY The goal of this program is to allow User Groups to facilitate progressive programming and sell underutilized ice for the enjoyment of locals and visitors. Local Clubs include Ice Miners (youth hockey), PC High School Hockey, Wasatch High School Hockey, Utah High School Hockey, Predators (women’s hockey), Figure Skating Club of Park City, Park City Speed Skating Club, Park City Curling Club and National Ability Center (sled hockey).Private Rentals includes all other ice contracts some of which include one-time activities hosted by companies or individuals (both local and visiting) who wish to rent the ice privately. The most common private rental activities are curling, ice hockey and broomball. Third party hockey camps are another private rental which provides programing to the local (and visiting) hockey community. This program also includes the retail program that includes custom skate sales and as well as convenience items such as laces, tape, skating tights and skate guards.

ICE FACILITY The Program Coordinator works closely with all User Groups and private rentals to maintain an efficient ice schedule that mitigates underutilized ice. In FY 17 we adjusted the day in which the ice schedule is finalized in order to accommodate more private rental requests. The date changed from the 15th to the 20th. The Program Coordinator has been very motivated to promote private rentals during underutilized ice. He often acts as an instructor or an ice operator to ensure the rental happens.

Section 5: Consequences of Funding Proposal at Lower Level

ICE FACILITY This program accounts for a significant amount of the facility's revenue and provides ice for all User Groups to host programing. User Group participants make up a considerable amount of the facility's usage. Limiting private rentals would limit desired access for locals and visitors who desire to use the facility for a private function. There is significant revenue off set for all ice rentals so funding this program at a lower level is not advisable.

ICE FACILITY Skating & Hockey Academy teach fundamental skills for ice skating and hockey. Academy programs are utilized as a feeder program to User Groups. Skating Academy offers seven different classes to accommodate all levels of skating as well as an introduction to synchronized skating. Hockey Academy offers Basic Hockey Skating and Learn to Play Hockey. Power skating and various camps and clinics are also important aspects of each program. The adult hockey league currently has three levels (Bronze, Silver and Open Gold). Leagues are offered year round and league size changes each season based on interest and available ice. PC Ice Arena currently has the second largest leagues in the state. Public sessions also help create interest for ice sports which feed our programs and User Groups. Public sessions also serve as an activity for visitors. Off-ice Strength & Conditioning and Off-ice Ballet provide sport specific training for athlete development and injury prevention. Off-ice programs are particularly important for training of competitive athletes, given the limited amount of time for on ice training. A thoughtfully organized ice schedule is critical to meeting the needs of User Groups, athletes and recreational users, as best we can with limited ice availability. Many of the facility's events are facilitated by User Groups including multiple hockey tournaments, figure skating shows, test sessions and competitions and speed skating races. The facility also hosts a holiday cross- ice hockey tournament, Try Hockey For Free, Skate with Santa and other special programming to share this amenity with the community and attract new skaters.

Change in Demand	Explanation
Program Experiencing a NO change in demand	Participation in Academy classes and the adult hockey leagues fluctuate season to season and maintain healthy levels year over year. Over the past few years, various factors contribute to declining revenue for public ice programs including increased ice rental resulting in a fewer number of public sessions. We do not anticipate an increase in demand from FY 18 to FY 19/20 at this time.

Section 4: Cost Savings / Innovation / Collaboration

ICE FACILITY Cost Saving: Full time staff are cross trained to be able to open and run the front desk and resurface the ice. Support during busy public sessions and events are often provided by full time staff. Full time staff can leave desk work to help during a rush or assist with a patron who needs more attention. During the week, this allows staff to provide great customer service without having an additional part time staff on the desk. The Front Desk is closed during more adult league games. Although this is not our desired level of service we continue to look for ways to meet the needs of patrons during this time. Score keepers are now assisting patrons between games to leave or pick up skates (for sharpening). The ice arena strives to incorporate technology into our ice programs. Marketing and communication of programs is done primarily through the rink's website, social media, and e-mail blasts. This has allowed for a reduction in marketing costs. Collaboration: Staff has worked closely with user groups to create an efficient ice schedule for youth based user groups and rink run programs, maximizing ice utility in the afternoon and early evening. The efficiencies allow for adult based user groups and rink run programs such as the Adult Hockey Leagues to begin and end earlier in the evening, allowing for leagues to grow by adding games later into the evening. In FY 15 off ice ballet classes moved to a new location at the PC MARC. Staff agreed that pre-registrations revenue would go to the Ice Arena and drop in revenue would go to the MARC. This allowed the Ice Arena to keep the program and provides a new revenue source for the MARC. The Ice Arena pays for the cost of the instructor. The collaboration allowed the program to support developing athletes for which the floors at the ice arena were not sufficient for their improving skills. Innovation: Staff continues to creatively increase participation and ice utilization in our programs. During the Late Fall session of Hockey Academy, part of the ice was underutilized during the class. Staff opened the available ice up a Cheap Skate, making the only afternoon public skating session and giving an opportunity for beginner skaters who needed ice for private lessons. Staff continues to creatively increase participation and ice utilization in our programs. New facility software is providing a better customer experience for all patrons.

Section 5: Consequences of Funding Proposal at Lower Level

ICE FACILITY If funding levels are below what is currently provided, the Ice Arena may have to limit the capacity of programs and/or eliminate certain programs due to lack of staff resources. Funding at a lower level will result in lower-quality instruction and the loss of participants due to dissatisfaction with the quality of instruction and lack of skill development. A reduction in class offerings would impact revenues as well as result in slower growth for user groups (the youth hockey organization, figure skating club and speed skating club) that depend on rink run programs (Skating & Hockey Academy) to attract and develop skaters, stimulate interest in ice sports and create participants for their programs/clubs.

GOLF PRO SHOP Cost Savings: The merchandiser is very careful to order in bulk. This keeps the costs of shipping to a minimum. We currently attend the national PGA golf show in Orlando every other year. In alternate years staff attends local Utah shows. Collaboration: The golf merchandiser provides information for Citywide departments for ordering staff uniforms and retail items. This allows departments to receive discounting for bulk buying. This year we will be celebrating our 50th anniversary and bringing merchandise specific to this which will capture a new sales audience.

Section 5: Consequences of Funding Proposal at Lower Level

GOLF PRO SHOP Retail operations are a vital part of the golf shop. To provide a quality resort feel experience, the golf shop needs to be sufficiently stocked with quality product. ICE FACILITY This program is the backbone for keeping the ice rink functioning and includes refrigeration, plumbing, HVAC and all of the other systems and equipment that are critical to the facility. It also includes all of the preventative maintenance to reduce the potential of a loss of ice and to maximize the efficiency of the operation and lifespan of equipment. This program also includes the supplies and resource for maintaining a clean and safe building. Within each component we strive for improve efficiency and reduce consumption of natural and financial resources.

Council Goal:

Desired Outcome:

Criteria for Meeting Desired Outcome

Wide Variety of Exceptional Recreation Provide accessibility to premier recreational activities/facilities to the local community at an affordable cost. Preserve the Park City brand. Environmental Stewardship. Healthy, active community. Develop Park City as a year-round destination recreation location.

Section 1: Scope

Change in Demand	Explanation
Program experiencing a MINIMAL increase in demand of 1% to 4%	Demands have increased for the Ice Operation program as the facility ages another year with very high utilization. However, we continue to pursue efficiencies that extend the life of equipment and decrease the use of expensive resources. The facility was originally underbuilt and is running beyond the capacity of the plant. At 10 years, components of the plant are requiring additional maintenance and monitoring which increases the demand on the operations staff. Rink Operators are working approx. one additional hour a week due to higher ice utilization. Staff believes the current budget can absorb the Impact on expenses for supplies and utilities. For FY 20 request, funding at a lower level would result in maintaining the current dasher board ad system which is becoming increasingly dangerous as the more dasher board ads are installed and removed the easier it is for screws to pop out of the material and the more likely to cause damage or injury to patrons. Additionally we may see satisfaction with ad sales decrease as it is difficult to keep ads clean. Switching over to stickers will help maintain clean ads.

Section 4: Cost Savings / Innovation / Collaboration

ICE FACILITY Staff continues to seek operational savings, particular by means that also enhance efficiencies and lower the facility's carbon footprint. In 2018, an energy audit was completed that makes recommendations that increase efficiencies, reduces the consumption of natural resources and creates financial savings. Cost savings also include cross training of Ice Management Team staff to be able to operate the front desk and resurface ice.

Section 5: Consequences of Funding Proposal at Lower Level

ICE FACILITY Funding the option at a lower level will result in lower levels equipment and facility maintenance which can lead to degradation of the ice quality and building safety. Additionally, the facility would have to limit hours of operations to stay within the part time budget. Limiting the hours of operation, would limit programing and ice rental which would limit revenues and the community's access to the facility. Additionally, funding at a lower level would provide even fewer resources to foster the City's net zero goal.

Description:

WATER OPERATIONS Investigation - Providing investigative work to resolve issues related to the billing system and customer inquiries. This ensures accurate billing and customer satisfaction. Connection Installation - Physically connecting individual systems to the City's water system through a water meter connection. Inspection prevents maintenance and billing issues, while installation requires specialized technical knowledge. Connection Maintenance - Testing and repairing meters to ensure accurate billing, and performing repairs to meter connections in order to minimize water loss and related issues. Emergency Response - The mobilization of resources to assist customers with emergencies on private water systems, including shutting off water, providing resource assistance, and offering technical advice. Provides assistance to water customers in identifying and resolving issues arising from their connection to the distribution system and within their own residential/commercial subsystems. Also provides internal service by providing investigative field work for Water Billing.

Council Goal:

005 Preserving & Enhancing the Natural Environment

Desired Outcome:

Criteria for Meeting Desired Outcome

High Quality & Sustainable Water Resources Providing extremely responsive and helpful customer service fosters residents' confidence in the quality of the services the Water Department provides. Accurate billing and revenue collection is dependent upon this program.

Section 4: Cost Savings / Innovation / Collaboration

WATER OPERATIONS In the last two years, this program has aggressively pursued a more accurate and reliable metering system through the installation of the Automated Metering Infrastructure and Meter Maintenance Program. This has resulted in more upfront expenses in materials and time, but long term the department will capture more revenue.

Section 5: Consequences of Funding Proposal at Lower Level

WATER OPERATIONS Reduction in level of service would result in lower customer satisfaction, increased response time to customer requests (especially outside regular business hours), and long term loss of revenue.

Description:

WATER OPERATIONS Preventative Maintenance - Tests, measurements, adjustments and parts replacement performed specifically to prevent failures from occurring. These tasks are carried out on a specific schedule and include tens of thousands of individual assets. Emergency Response - Mobilization of necessary resources to resolve unexpected failures in the system and maintain adequate water delivery. Current level of service is very high, with 24/7/365 one hour response time. Operations - Monitoring sources, tank levels, pump status, and system pressures. Using this data as input, the system is operated to provide adequate and reliable water to Park City's customers. There is currently at least one operator at all times monitoring the distribution system on a 24/7/365 basis.

Section 4: Cost Savings / Innovation / Collaboration

WATER OPERATIONS The Department is investigating new technologies that we hope will bring new efficiencies to the way we operate, and we have been investing and installing others, as electricity consumption is one of our biggest expenses. Some examples include micro hydro power generation, variable frequency drives, collaboration with the resorts on efficient snowmaking, off-peak pumping and operational improvements to pumping operations. We also have been sharing resources with neighboring utilities on problem solving, and look to expand that into operator training this year.

Section 5: Consequences of Funding Proposal at Lower Level

WATER OPERATIONS A reduced level of service would directly impact preventative maintenance schedules and emergency response. This would result in neglected assets which then would require more frequent repairs, less immediate response to emergencies, and the potential for fire protection, health and safety issues.

Description:

WATER OPERATIONS Monitoring - Testing and lab analysis of water samples, both regulated and investigative. The current level of service includes monitoring above regulations, which allows Staff to optimize treatment and increase consumer confidence. Treatment - Mechanical processes of treating the water to regulated standards. Reduced treatment is not an option. Staff already optimizes the use of the sources, so the only way to reduce the amount of water treated is to reduce the amount of water used through stringent conservation measures. Analysis - Planning and reacting to changes in water quality and regulations, as well as analysis on treatment optimization. The current level includes reviewing lab analyses, investigating quality issues, exploring and optimizing treatment methods, and database maintenance. Security - Preventing tampering and contamination of the distribution system through maintenance of physical assets, routine checks and monitoring, and alarm system response. Water treatment includes operation of Spiro Water Treatment Plant, Quinn's Water Treatment Plant, Park Meadows Well UV System, well chlorination, and Judge Tunnel chlorination. Water quality monitoring includes required sampling per Utah Division of Drinking Water Rules and Regulations, additional sampling for consumer confidence and analysis of quality data, lab analyses and treatment methods.

Council Goal:

001 Preserving & Enhancing the Natural Environment

Desired Outcome:

Criteria for Meeting Desired Outcome

High Quality & Sustainable Water Resources Maintaining and improving water quality is key to providing safe drinking water as well as reducing the Park City mining legacy's impact upon the local and regional environment. The events of the past few years, as well as the tightening of water quality regulations and increasing consumer expectations, demand that we continue to maintain and improve water quality.

Section 4: Cost Savings / Innovation / Collaboration

WATER OPERATIONS Source optimization is one of our primary focuses as we bring the Quinn's WTP online. Large cost savings will likely result from: looking at and comparing costs to produce, treat, and distribute water from each water source; prioritizing the use of those water sources; and analyzing how those sources interact and blend once in the system. The Water Research Foundation, EPA, Utah Division of Drinking Water, and neighboring utilities (notably Mountain Regional Water and Jordanelle Special Service District) have all provided guidance and resource assistance in analyzing our issues and improving operations.

Section 5: Consequences of Funding Proposal at Lower Level

WATER OPERATIONS A reduction of service would result directly in poorer water quality and the possibility of not meeting EPA and DDW mandated water quality regulations. Consumer confidence would likely dip as well.

Desired Outcome:

Criteria for Meeting Desired Outcome

Energy: Conservation, Renewable Energy, Carbon Reduction & Green Building Incentives

City Council has identified carbon reduction as a priority among its goals. Additionally, the Park City community has demonstrated a strong willingness to participate in these efforts in the form of Save Our Snow and other outreach activities. Carbon reduction activities naturally lend themselves to economic and community progress in the form of lowered operating costs, public health benefits, citizen engagement, and overall improved quality of life.

COMMUNITY ENGAGEMENT

Planned and implemented municipal carbon reduction projects have the potential to save \$275k annually while preventing over 2,800 tons of CO2 per year. Furthermore, staff has raised over \$380k in grants for PCMC energy projects in recent years. PCMC regularly collaborates with other local governments and organizations on environmental issues. Recent examples include climate change adaptation planning with eight other municipalities in the Intermountain West region and an upcoming collaboration, funded by \$424k in DOE grant funding, to advance solar energy in Utah.

ENVIRONMENTAL SUSTAINABILITY

Section 5: Consequences of Funding Proposal at Lower Level

COMMUNITY ENGAGEMENT

Funding at a lower level will delay, or prevent, the implementation of projects critical to advancing local carbon emissions goals. While PCMC has been successful at implementing numerous one-off programs and initiatives, the current amount of investment is unlikely to support tangible, long-term reductions in the community carbon footprint. In addition to continued support of an outreach program for homeowners and renters (Low Carbon Diet), PCMC must engage with the commercial sector and also influence what sources generate our electricity in order to have a true reorientation towards a lower-carbon community.

Description:

WATER OPERATIONS Items include monitoring customer accounts and assisting them with issues, building work orders, working with software vendors and creating the water bill file. Challenges to the goal of this program are to provide the customer with the most reasonable, up to date information for them to manage their accounts. Newly acquired technology will help customers monitor their water consumption and better budget their household use in spite of increasing water fees. The Water Billing Department provides a variety of customer and billing services for this program. It requires that accurate meter reading and associated technology be precise. It also requires that meters are read and water bills sent to customers in a timely fashion. Additionally, customer service staff assists property owners with water leak detection and water conservation.

Council Goal:

013 Preserving & Enhancing the Natural Environment

Desired Outcome:

Criteria for Meeting Desired Outcome

High Quality & Sustainable Water Resources Water and Natural Environment has been identified by Council as a top priority through Council's goals (Outcomes Area) and the strategic plan. The Water Billing program is a critical (core) function in the delivery of clean drinking water to residents and businesses. Proposed enhancement of the program is based on inflation in the cost of mailing services and training due to advancing technology.

WATER OPERATIONS By bringing in more staff over the last few years to manage projects in-house, we have reduced the cost of contracting engineering services with outside consultants. Operations and Projects have fostered a closer partnership, which results in better end products and well-rounded staff. Working more closely with Engineering, Planning, and other departments has increased efficiency as resources are shared and permitting and similar processes are streamlined.

Section 5: Consequences of Funding Proposal at Lower Level

WATER OPERATIONS A water system is only operable if it is planned, built and replaced as needed. Reductions to the project management program would result in poor project execution and expense of capital, assets that are less "operator friendly" and compatible with the existing system, and the high likelihood of future water shortages and quality issues.

Description:

WATER OPERATIONS Education - Providing information to the general public in order to foster consumer decisions that benefit the water system and region. Analysis - Using logical reasoning to examine each component of the data and to provide recommendations and solutions for increased efficiency of Operations. Coordination - Providing leadership, planning and financial assistance for the conservation and responsible use of water. Management practices that reduce or enhance the beneficial use of water through education, analysis and coordination with multiple entities. Applies to both water and energy conservation, and considers the region and individual consumers as part of the overall water system.

Council Goal:

012 Preserving & Enhancing the Natural Environment

Desired Outcome:

Criteria for Meeting Desired Outcome

Conservation of Natural Resources Conservation of water equates to a higher degree of sustainability, both environmentally and in regards to the physical water system. Using less water means reducing the environmental impact by releasing more water downstream, expending less energy in treatment processes and pumping operations, and less chemical use and solids production. It also means reduced cost of operations, maintenance and asset replacement.

Section 4: Cost Savings / Innovation / Collaboration

WATER OPERATIONS Conservation is a relatively low cost program. However, we strive to collaborate with regional partners such as Recycle Utah, the Utah Water Conservation Forum, the Park City Board of Realtors Water Conservation Task Force, Weber Basin Water Conservancy District, and neighboring utilities. Working together reduces the individual resource needs for all involved. New technologies such as the automated metering infrastructure and online leak detection help us pinpoint and stop leaks sooner.

Section 5: Consequences of Funding Proposal at Lower Level

WATER OPERATIONS Reductions in the level of service would mean far less public education, which is critical to achieving any level of conservation. In order to meet the state-mandated reduction of 25% per connection by 2050 and continue to be a sustainable water system, we must continue to pursue water conservation.

CITY ATTORNEY Work with state and federal agencies on issues including negotiating UPDES permits on water discharges within municipal boundaries. The Legal staff proactively provides research and general support on all environmental issues to the Sustainability Department involving the City with negotiating multi-party agreements related to contaminated soil in and around Park City; researching records as part of identifying potentially responsible parties; filing FOIA requests with federal agencies; maintaining compliance with state Division of Drinking Water regulations; obtaining closure of existing physical mine hazards; negotiating the location, design, operation and maintenance of a hazardous waste repository; and holding developers accountable for the environmental requirements in development agreements and local land use codes.

ENVIRONMENTAL SUSTAINABILITY This budget includes all items related to environmental regulatory work related to Legacy Mine soils.

DENTAL SELF FUNDING The City provides Dental Insurance to the City's Employees, and does this by paying for all dental claims instead of paying for an insurance policy. This method saves the city money over purchasing insurance.

Section 5: Consequences of Funding Proposal at Lower Level

ENVIRONMENTAL SUSTAINABILITY

While staff is proposing a significant budget reduction, due to cost reductions in funding for FY2013, if the budget is reduced below the requested level, we will not be able to support homeowners and businesses in the cleanup of their property. Additionally, a reduction in budget will mean that our access to expert outside legal counsel will be eliminated. This will mean that we won't have the best advice on agreements with the EPA and the State. Also, our communication, service, and interaction with the EPA and other entities would suffer. Temporary or outside staff would not have background information and facts to proceed efficiently and effectively with ongoing issues.

Description:

COMMUNITY ENGAGEMENT Provides administrative, community outreach and policy support related to open space acquisition and administrative support for COSAC. The Open Space program is funded from voter-approved open space bonds and Flagstaff transfer fees. Land is purchased outright or conservation easements are acquired. Maintenance and coordination with support entities for these properties require a high level of service, including weed management, easements, education and regulation. Responsibility for interfacing with landowners and the third party conservation easement holders also rests in this area.

ECONOMY Coordination and collaboration with supporting and jurisdictional entities (Summit Lands, Utah Open Lands, DNR, Summit County, BOSAC, non-profits). Citizen engagement, property maintenance, and regulation including but not limited to weeds, fencing, signage, and hunting. Property acquisition and oversight. Internal coordination with parks and events staff. Open Space Management & Acquisition we have upped the responsibility, complexity and workload needed to manage open space, including in particular acquisition: Manages COSAC in spending allocated resort city sales tax for open space purchases which includes reports, personnel management, technical research, understanding of real estate market and trends, represents city on BOSAC, property negotiations, elicits policy direction (closed sessions). City Owned Property Management & Strategic Plan - Documentation and inventory of open space & city owned parcels, creation of a system from scratch to manage these resources.

Council Goal:

015 Preserving & Enhancing the Natural Environment

Desired Outcome:

Criteria for Meeting Desired Outcome

Open Space Acquisition Preservation of natural environment was identified during the 2009 visioning process as a core element of Keeping Park City, Park City. It is key component of Council's Natural Environment priority.

COMMUNITY ENGAGEMENT

Community & Environment: Collaboration - Staff collaborates with BOSAC and Summit County to identify areas of joint concern. There is also collaboration in joint funding of land purchases, although at this time the City does not have any open space funds available for land purchase.

ECONOMY

Economy: Maximizing expectations and deliverables within our existing easement partnerships and coordination of educational outreach through non-profits. Providing innovative and cost effective management tools for properties, which balance the community's desire for conservation and recreation. Engaging adjacent entities across jurisdictions to provide overall community benefits.

Section 5: Consequences of Funding Proposal at Lower Level

COMMUNITY ENGAGEMENT

A key consequence of reducing funding is the loss of administrative support including packets and minutes for COSAC.

ECONOMY

Lack of coordination, collaboration and partnerships with supporting agencies and adjacent entities is incongruent with Council goals of open and responsive government and may lead to larger regional issues. Lack of funding may lead to missing grant opportunities. May impact Council goals of recreation, trails and open space negatively. Development impacts. Also, reducing the level of funding for open space could have negative impacts on the quality of the user experience through reduced maintenance and interagency coordination.

Description:

COMMUNITY ENGAGEMENT The Affordable Housing program provides land and property acquisition, disposition and development services. Staff develops, analyzes, supervises and implements affordable housing policies, plans and programs. Prepares housing needs assessments and housing standards and guidelines. Provides analysis and recommendations on MPD and annexation applications of compliance with affordable housing guidelines. Manages City's employee housing and maintains quality of assets.

Council Goal:

007 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Housing: Middle-Income, Attainable, and Affordable Housing Affordable housing has been identified as a key component of the Council Goal Preservation of Park City's character. Middle income is or particular concern to Council. A range of housing options fosters community and economic diversity. It remains a vexing issue in the community with a slight decrease in community satisfaction in the availability of affordable housing in 2013. Implementation of affordable housing at Park City Heights and Lower Park Avenue has not yet begun which may contribute to the decreased satisfaction.

Section 5: Consequences of Funding Proposal at Lower Level

COMMUNITY ENGAGEMENT Maintaining the level of service initiated during the last budget cycle will allow staff to continue its focus on new financial and property resources. Staff identified a number of options to pursue but face the challenge of how to implement these innovative financial approaches within the limitations imposed by changing municipal finance requirements. At the requested level of funding we will continue moving these efforts forward through consultant resources. At current levels of staffing we cannot pursue this initiative without affecting existing levels of service in the housing program, as well as in the community outreach and engagement program.

Description:

STATE LIQUOR ENFORCEMENT State and Federal grants help fund the staffing of special DUI enforcement. The State Liquor Grant helps to fund additional staffing for major special events that have an alcohol component attached such as a beer garden or an event that draws crowds to the bars. The State Grant helps cover staffing costs for officers conducting bar checks for alcohol compliance. The State Grant has also covered the costs to purchase portable breath test instruments and in car video cameras to help support our prosecution efforts.

Council Goal:

011 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community The State Grant is awarded to us annually as a result of our effective use of the grant. The grant funds are used in strict guidelines set forth by the grant.

Section 1: Scope

Change in Demand	Explanation
Program Experiencing a MODEST increase in demand of 5% to 14%	Over the past several years we have had a drastic increase in our serious crimes, including homicides, juvenile drug cases, suspicious infant deaths, felonious thefts, and million dollar drug cases. This has all been in addition to the typical theft, domestic violence, intoxication, and other incidents police handle regularly. We had also had an increase in special event staffing as best practices have changed due to increased home-grown terrorism throughout the nation and other threats.

EMERGENCY MANAGEMENT Emergency Management protects our community by coordinating and integrating all activities necessary to build, sustain and improve the capability to mitigate against, prepare for, respond to and recover from threatened or actual natural disasters, acts of terrorism or other man-made disasters of all sizes. We also manage City Building Security and Citywide Safety Programs

EMERGENCY CONTINGENCY The Emergency Contingency Fund is an "evergreen account" that was started in FY2012 to put aside funding for emergencies or disasters that befall the city that are not budgeted for. In FY 16 this account was changed to remain at \$100,000 per year. In FY17 \$10,000 was used for the purchase of the Mobile Command Trailer (MCT) and the current balance is \$90,000.

Council Goal:

026 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community Emergency Contingency like many of the tenets of emergency management is planning for the worst and hoping it won't happen. Inevitably a large emergency will occur and without this fund there will be no ready source of funds to pay the expenses of the emergency or for recovery from the emergency. In many respects this is a self-funded insurance policy for items that are not covered by traditional insurance.

Section 1: Scope

Change in Demand	Explanation
Program experiencing a MINIMAL increase in demand of 1% to 4%	All three areas of responsibility, Emergency Management, Security and Safety have all seen an increased focus and demand for services over the past several years, stretching the Emergency Manager's ability to meet increasing requirements from government, insurers, special events, international security concerns and preparing the community.

<p>EMERGENCY MANAGEMENT</p>	<p>We have established a unique EOC model which has garnered statewide attention and the Emergency Manager has developed a number of policies being adopted by other agencies. <p>EMERGENCY CONTINGENCY</p>	<p>The Emergency Contingency Fund provides an immediate source of funding for emergencies and disasters that do not have a specific fund source. For large events funds may have to be reallocated.</p>

Section 5: Consequences of Funding Proposal at Lower Level

<p>EMERGENCY MANAGEMENT</p>	<p>Staff: Reduced staffing hours will greatly inhibit our ability to stay current with State and Federal requirements, keep up with staff training, develop our community outreach preparedness program and limit our response to emergencies including significant reductions in our abilities to meet OSHA standards and security needs. Materials: Reductions would reduce the ability to attend educational training, conduct exercises, keep all of our equipment in good working condition and up-to date, maintain service contracts, greatly impacting our ability to adequately respond to emergencies and disasters. At some levels we would lose some of our response capabilities all together..</p>

COMMUNICATION CENTER The Park City Police Dispatch Center is a multi-communications center and acts as a liaison between internal municipal divisions, community businesses, city, state, and federal agencies. All calls for service to community come through our dispatch center. The communications center is staffed 24/7 with full- and part-time staff and is supervised by the communications coordinator. Dispatchers' shift schedules provide for overlapping coverage during peak call times. The Communications Center fields all types of calls for service and dispatches officers appropriately to those calls. 911 calls for Park City come in through the Summit County Sheriff's Office. Park City dispatch also serves as the back-up 911 center for the Summit County Sheriff's Office and if the need were to arise could function as the 911 center for Wasatch County Sheriff's Office. In addition to being a back-up 911 center, we have the ability and agreement to function as an overall communication center for both the Summit and Wasatch County Sheriff's departments.

Council Goal:

031 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community In order for the Communications Center to meet its ongoing commitment and obligations to the community it is necessary that we replace existing, outdated equipment and technology. In a combined effort between Park City, Summit and Wasatch Counties, known as the Wasatch Back, we have joined together to ensure that we can provide redundant emergency capabilities in the event of a major emergency or disaster as well as prepare for future growth.

ENGINEERING Provide water meter inspections, public improvement inspections, inspections of utility and private work within the Right-of- Way (ROW) and other inspections deemed necessary to maintain the City ROWs in good condition.

BUILDING DEPT. The purpose of the Department of Building and Fire Safety is to establish the minimum requirements to safeguard the public health, safety and general welfare through structural strength, means of egress, stability, sanitation, adequate light and ventilation, energy conservation and safety to life and property from fire and other hazards attributed to the built environment. The department also provides safety to fire fighters and emergency responders during emergency operation. The Inspectors shall apply the provisions of the International Building Code and National Electrical Code to construction, alterations movement, enlargement, replacement, repair, equipment, use of occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures. The inspectors ensure that all structures are built to the minimum standards of the building code.

Council Goal:

051 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community The Inspectors are a key component for a quality housing stock for Park City. They ensure that construction has gone through the proper permitting with planning and ensures that it meets the high standards of Park City's design guidelines. Inspectors are required to be certified by ICC and Licensed by the State of Utah. This requires a lot of additional training when compared to inspectors in other States. The engineering ROW inspection's program was developed to provide another check to verify that plans previously approved by Building, Planning and Engineering are constructed correctly. This program was also developed to monitor the safe work efforts of utility companies as they work within the City's ROWs. The Public Safety desired outcome of our inspection bid is to assist in prevention specifically in how to maintain quality of life.

ENGINEERING No budget requests related to the Engineering Inspections Program.

BUILDING DEPT. Consequences of funding proposal at a lower level would be staff turnover and additional cost of training new staff and the quality of plan reviews and inspections would drop drastically with fewer staff and less qualified staff. The quality of inspection would drop due to time constraints. Collaboration between PD and public works maybe lost. Inspections verify that the water system connections, public improvements by private individuals and ROW work meet the requirements of our municipal code, LMC, standard specifications and standard practices. Not funding these regulatory functions will cause a deterioration of our public facilities within the ROW as lower grade materials, unscrupulous construction methods and the quality of overall construction are compromised. Consequences for not funding the increase in mileage reimbursement specifically will be the inspectors' inability to perform their primary job function. If a City vehicle is unavailable and there is no remaining mileage reimbursement, the inspector will have no mode of transportation to visit construction sites and complete building inspections. The result would be that construction mitigation and collecting business licenses would not take place as needed and fees would not be collected along with complaints would increase with longer turnaround times to compliance.

LIBRARY Youth & Spanish Services is a program encompassing education and enrichment opportunities for Park City children, youth, teens, parents, and visitors. It provides a collection of reading materials, reference service, and programming tailored to youth and the Latino community. The library offers quality materials (such as books, e-books, audiobooks, DVDs, magazines, and early literacy and STEM computers), programs, classes, and outreach to help the community's youth with early literacy, school readiness, and continued development of 21st Century Skills. Services for Latinos also include the provision of books, audios, DVD's, magazines and ESL materials along with classes, programs and outreach.

Section 4: Cost Savings / Innovation / Collaboration

LIBRARY Collaborating with the Park City Day Camp and Park City School District to engage the youth in participating in Summer Reading Programs; thus, helping to prevent the 'Summer Slide', is an efficient use of money requested for programming. Working with other nonprofits to co-host programs such as the Gingerbread Jimmy House Contest, Books 2 Movies, Summit County Library, and Windy Week with Recycle Utah creates cost savings for the library.

Section 5: Consequences of Funding Proposal at Lower Level

LIBRARY The library has already begun seeing some negative consequences of not having someone dedicated to teen needs. Graffiti, theft, and damaged equipment are now a reality due to not having someone in the building to focus on serving teens. Their time in the YouCreate Lab is unsupervised and they are not engaged in library programs to channel their energies. In addition, our programming numbers will continue to come in low for teens. This is seen nationally on our library statistics and negatively reflects on our services. The library has sought awards such as Best Small Library of the Year and has been turned down due to deficits such as this. Our teens in Park City are important and deserve dedicated service in the library. The Young Adult Library Services Association (YALSA) advocates for dedicated professionals to serve this specialized population which are essential members of our society utilizing the services of libraries as we move into the future. The teen genre of literature is specialized and a lot of fun for our community if a dedicated teen specialist can bring attention to the resources.

BLDG MAINT ADM The Building Maintenance Department provides a variety of services through Inspections and Contract Supervision for this program. It requires that City building inspection and contract supervision are performed throughout all City owned facilities so as to ensure the health and safety of building occupants along with supervising contractor provided building improvements.

Council Goal:

054 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Well-Maintained Assets and Infrastructure Open and Responsive Government has been identified by Council as a high priority through Council's goals (Outcomes Area) and the strategic plan. Mandated governmental regulations and the desire for quality control oversight are dictated by health and safety compliance. The building inspections and contract supervision program is a critical (core) function in preserving the City's infrastructure.

Section 4: Cost Savings / Innovation / Collaboration

BLDG MAINT ADM "Collaboration": Being in the Public Works Division, the Building Maintenance Department has a primary maintenance function in providing safe facilities. Working collaboratively with other governmental agencies and contractors has created efficiencies which allow for greater productivity. These require a tremendous amount of support by staff in coordinating the timing of installation & repairs. "Innovation": The Building Maintenance Department continually looks for creative ways to increase productivity, Environmental stewardship, service levels, and equipment availability while decreasing the carbon footprint and equipment downtime through innovation. Recent examples: upgrade the Police and Marsac buildings to new fob access control cards.

Section 5: Consequences of Funding Proposal at Lower Level

BLDG MAINT ADM The consequences of lowering the funding for this program include: falling out of compliances, unsafe facilities, and risk of possible citation. There would also be a decrease in contract oversight which would impact quality and increase complaints from tenants and building users.

COMMUNITY ENGAGEMENT Address more effective communication with seniors, promote greater participation in senior programs, and develop aging in place options including senior housing and transportation. In June 2011 the City Council adopted the Senior Services Strategic Plan.

Council Goal:

Desired Outcome:

Criteria for Meeting Desired Outcome

Diverse Community Participation Senior Services is an action strategy for strengthening an inclusive community. In recent years, a number of citizens have raised concerns about perceived gaps in services with a special focus on the housing needs and assisted living needs of many seniors. Most of the information was anecdotal and therefore, the City and County partnered to complete a survey of issues and needs in 2009 and later a senior services strategic plan.

The Code specifically states that the jurisdiction shall establish a special revolving fund to be designated as the repair and demolition fund. Payments shall be made out of said fund upon the demand to defray the costs and expenses which may be incurred by the jurisdiction in doing on causing to be done the necessary work of repair or demolition of dangerous buildings. ENGINEERING Review and sign off on planning documents, building permits, engineering permits and other projects generated by the Building/Planning/Engineering Team.

PLANNING DEPT. The Planning Department handles all land use applications for the City/Planning Commission including, but not limited to: Conditional Use Permits, Steep Slope Permits, Master Planned Developments, Subdivisions/Plats/Records of Survey, Sign Permits, etc. The department works with applicants and assists them with their submittals, carries them through the planning process, and prepares materials for presentation to the Planning Commission and City Council.

BUILDING DEPT. The purpose of this program is to establish the minimum requirements to safeguard the public health, safety and general welfare through structural strength, means of egress, stability, sanitation, adequate light and ventilation, energy conservation and safety to life and property from fire and other hazards attributed to the built environment. The department also provides safety to fire fighters and emergency responders during emergency operation. The plan examiners shall apply the provisions of the International Building Code and National Electrical Code to construction, alterations movement, enlargement, replacement, repair, equipment, use of occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures. The plan examiners ensure that all structures are built to the minimum standards of the building code.

Council Goal:

071 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community The plan examiners are a key component for a quality housing stock for Park City. They ensure that construction has gone through the proper permitting with planning and that it meets the high standards of Park City's design guidelines. The plans examiners are highly qualified and help with inspections, which requires them to be certified by ICC and licensed by the State of Utah. This requires a lot of additional training when compared to inspectors in other States.

ENGINEERING No budget request submitted for plan/application review program.
PLANNING DEPT. All application review is done in coordination with our Legal, Building, and Engineering Departments. The process is formalized and well understood by the Planning Department. Also, the Department uses plan examiners as back up inspectors and cross trains staff to counteract retirements.

Section 5: Consequences of Funding Proposal at Lower Level

ENGINEERING Lower level funding for plan/application review would require the department to either shift the other workload elements to other teams so that the regulatory function stays intact, reduce the number of projects anticipated, work on projects at a slower pace or simply not continue with all of the OTIS, CIP, Federally funded projects. Staff did not have resources available this year to do a OTIS project, thus delaying a program which Council wanted completed sooner than later.
PLANNING DEPT. Consequences of funding proposal at a lower level would be staff turnover, additional cost of training new staff, and decreased quality in reviews and inspections due to a reduced and less-qualified staff. Additionally, a reduction in funding would result in delays in processing applications. Finally, building plan reviews by Engineering verify that the plans meet our current local ordinances. Plat reviews by engineering verify that the plat meet local, county and state requirements for recording of ownership plats. Not funding these regulatory functions may cause code and functionality issues down the road.

Service providers are eligible to apply for a special service contract every biennial budget process. The City will award special service contracts through a competitive bid process administered by the Service Contract Subcommittee and City Staff. The special service contract program policy is outlined in the budget document, Vol I. This program's budget is a percentage of the City's total budget and fluctuates accordingly. Per Council policy, up to 1% of the operating budget annually is dedicated for contracting with not-for-profit organizations to provide service for community benefit.

Council Goal:

060 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Resilient and Sustainable Economy Special service contracts are generally viewed as the City investing in and providing needed services to the local community.

Section 6: Performance Measures

	Description
	-

Description:

SELF INS & SEC BOND There are two additional Programs managed by the Emergency Manager - those being Building Security and Safety. In conjunction with the Building Security Committee, the Security Program manages all of the city's closed circuit video (camera) systems (CCVS), electronic access control (EAC), security audits, security upgrades to city buildings and security training for all city employees. The Citywide Safety Program includes management of all aspects of occupational safety, from staff training and awareness, program oversight, incident review, Safety Data Sheet management, workspace inspections, management of outside agency audits and inspections, etc.

EMERGENCY MANAGEMENT As part of City's emergency operations center (EOC) management, this 'evergreen' fund is designed to add or upgrade aging equipment necessary to manage and support responses to a large-scale incident.

Council Goal:

105 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community The Security Program had been charged with upgrading and centralizing all video and electronic access controls in fourteen City buildings, in addition to other security upgrades and training of all city employees on security measures. Park City has not had a citywide safety program across all departments. The new Safety Program will reach all employees and meet all federal and state requirements over a period of two to three years. These programs help meet the requirements of an "engaged and capable workforce," along with being a "fiscally & legally sound" municipality.

Section 1: Scope

Change in Demand

Program experiencing NO change in demand

Explanation

Due to the need to meet required OSHA standards, a higher level of safety education and tracking is required. On the security side, more buildings are being added to electronic access controls which increase security and accountability, along with an addition of cameras for security and investigations.

Section 4: Cost Savings / Innovation / Collaboration

SELF INS & SEC BOND Safety and Security are both key components to risk management and the cost of insurance. Insurance placements for CY14 all increased. Workers Compensation increased 10% of which 9% of the increase was due to injury claims. Comprehensive safety programs help reduce those premiums, as do security programs for other insurance policy premiums. The National Safety Council reports that for every dollar spent on a safety program you save four dollars in expense. Innovative training programs for both projects along with using free resources and in-house staff save money as well.

Section 5: Consequences of Funding Proposal at Lower Level

SELF INS & SEC BOND The Safety Program will allow us to meet all Federal and State OSHA standards as required by law. Lowering funding will greatly reduce our ability to be in compliance in a timely manner. Most Security funding is CIP based but there need to be funds for maintenance and other inter-departmental expenses that departments will not prioritize or budget for. Decreased or no funding will hamper our ability to complete our centralized systems and reduce our ability to lower insurance premiums, not to mention our ability to investigate and monitor key critical infrastructure.

MENTAL HEALTH The Summit County Mental Wellness Strategic Plan is the result of an eleven-month community initiative to identify and address issues of mental health & substance abuse. Recognizing that Utah has the highest rate of mental illness in the United States (23.4%) and that an immediate need exists within our community, both the Summit County Council and the Park City Council have recognized this as a key priority in their 2017 Goals. Through the use of community surveys, focus groups, and the creation of a community-based coalition centered on mental health & substance abuse; the following strategic plan is presented to the community as a means of enhancing the quality of life for all Summit County residents, regardless of mental health or substance abuse concerns.

PLANNING DEPT. A core function of the Planning Department is to carry out long range planning, future project and/or sub-area planning districts, the General Plan rewrite, etc. Many of these long-range planning projects overlap with redevelopment planning within the City's designated areas. Some long-range projects are site specific, while others affect the overall character of the City. The Planning Department is currently finalizing the General Plan process and document. Upon completion, we will begin the Lower Park Avenue Redevelopment Plan, the Bonanza Park Plan (Phase II) and Form Based Code, and then begin the Prospector Square Area Plan. This planning process will be throughout the 2 year budget period. In addition, we will begin the LMC rewrite in FY2015.

This included the Bonanza Park Area Plan in January 2012. Our goal is to continue to address the ongoing planning/economic/sustainability needs into the future. The General Plan is the City's blueprint for managing future growth and development as well as a tool to implement new citywide programs.

Section 4: Cost Savings / Innovation / Collaboration

ECONOMY Cost savings: Specific oversight of trail event criteria and fees will specifically offset trail maintenance and deter events which may damage the facility or negatively impact the public's ability to access the trail system. Innovation: There is very little to no current data on the fiscal impact of trail users, their demographics or desires per the Park City trail system.

Section 5: Consequences of Funding Proposal at Lower Level

ECONOMY Trails are a high priority goal for Council, as well as for the community. Enhancement in data collection will help meet goals established in the Transportation Master Plan, as well as work towards providing a better understanding of the public's use of the system. Furthermore, oversight of trail event criteria and fees may result in negative impacts on the trails and trail user experience.

PLANNING DEPT. The Planning Department works with developers, applicants, and residents to implement the City's Historic District Design Guidelines. This review process is carried out in a two-part process that involves a pre-application and a complete application meeting. In addition to this design review function, the Department consistently updates the Historic Sites Inventory (HSI) and has created a new set of Design Guidelines that have been in use since April 2009. Currently the Planning Department carries out all Historic Preservation functions for the City, including HDDR (Historic District Design Review), Historic Site Inventory (HSI) updates, Guideline revisions, etc.

Council Goal:

116 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Historic Preservation The Department handles all of the Historic District Design Review functions for all the Historic Districts. This includes Pre-App meeting with the Design Review Team (DRT) and the pending detailed Staff review. This also includes all Historic Site Inventory updates, updates to the Historic District Design Guidelines, implementation of the City's grants for historic work, and Main Street National Register efforts. This is an essential component to maintaining the Preservation of Park City Character - a primary goal of the City Council.

PLANNING DEPT. The assigning of a single Planner/Architect to lead these efforts has proven extremely beneficial and efficient. As coordinator of all things "historic" in the Department, the result has been improved timing for applications, improved consistency, improved design efforts, and improved tracking of all historic projects/activity.

Section 5: Consequences of Funding Proposal at Lower Level

MCPOLIN BARN The Park City Farm is a public facility owned and operated by Park City Municipal Corporation. The Park City Farm serves the community by hosting educational programs and a variety of events for the community. Offer community access at no fee or a reasonable fee. Balance the use of the facility among the ENTIRE community while being flexible and responding to changing needs of community. Preserve the historic and sentimental integrity of the Park City Farm as open space and protect Farm from overuse. Events have been offered for the past ten years while using the same equipment for each event. Mission Statement: The Park City Farm is a very important symbol in the public consciousness and a focal point for Park City. The citizens of Park City wish to retain and preserve the historic quality of the buildings, focus on the local use of the building, maintain public access, maintain the intimate high quality atmosphere and foster community use of the Farm.

Council Goal:

132 Inclusive & Healthy Community

Desired Outcome:

Criteria for Meeting Desired Outcome

Varied & Multi-Seasonal Event Offerings The McPolin Farm has been identified by staff, City Council and the National Register of Historic Places as one of the best preserved historic farmsteads in Summit County--and the only significant farmstead within the municipal boundaries of Park City. PCMC must manage, operate and protect this historical landmark, as well as share meaningful information with the citizenry on the property's historical background, purpose, public use, policy and future improvements. Proposed LOS would allow us to continue inviting the public to attend events at the McPolin Farm and possibly offer an additional event to the Park City community and tourists and continue with our goal of an inclusive community of diverse economic and cultural opportunities.

MCPOLIN BARN The Friends of the Farm and Farm Manager strive to keep the events for the community as low cost as possible. Cost for catering and performers increases every few years. The increase in cost did affect events at the Farm this year. As stated we will consistently research for the lowest costs possible for these events. These events are available to the entire Park City community. These programs foster community use and knowledge of the facility. Events scheduled for 2016-17 will be 100% cost recovery from event revenue.

HISTORICAL INCENTIVE GRANT The Historic District Grant Program was established in 1987 to assist property owners in maintaining historic residential and commercial structures by offsetting the costs. The Historic Preservation Board (HPB) reviews these applications on a monthly basis, as necessary, and grants funds from the Capital Improvement Projects (CIP), and Lower Park Avenue RDA. In the past funds were additionally available from the Main Street RDA but all funds are now being relegated to other projects. With the loss of incoming funding from the Main Street RDA the City would require designating some CIP funds to the Grant Program to allow property owners to continue to utilize the program and maintain their historic structures. These funds must be included in the operating budget. Funds will be taken from Capital, resulting in a zero-sum change for the City.

Description:

STREET MAINTENANCE WATER OPERATIONS This Program maintains City storm drain systems in order to minimize the addition of pollutants into stream water, and to minimize potential flooding. This Program is responsible for meeting the requirements of the Utah MS4 permit. The City has currently been designated, but has not yet applied for coverage under the permit.

Council Goal:

003 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Water Conservation

Section 1: Scope

Change in Demand

Explanation

Program Experiencing a SUBSTANTIAL increase in demand of 25% or more

Demand has increased substantially as previously the City had not been mandated by the State to undertake this Clean Water Act obligation.

Section 5: Consequences of Funding Proposal at Lower Level

STREET MAINTENANCE Additional waste and dirt will enter the waterways that run through Park City. This will negatively impact aquatic wildlife and the natural environment.

WATER OPERATIONS Park City is obligated to obtain a permit under the Clean Water Act to operate our storm water system. Funding at a lower level will increase the chances that we will not meet the terms of the permit opening the City up to substantial penalties under the Clean Water Act.

Description:

CITY ATTORNEY Work with the Park City Police Department and other agencies to prosecute misdemeanor offenses which occur within Park City's municipal boundaries. Park City Prosecutor screens approximately 550 cases annually. Advises the Police Department in the field on issues ranging from search warrants to first amendment rights to free speech. Conducts quarterly trainings with the Police Department on a broad array of legal issues. Conducts bench and jury trial and works with the Summit County Attorney's Office on county cases involving Park City personnel. Collaborates with the Summit County Victim's Advocate Coalition. Researches grant opportunities for establishing Park City's own victims' advocate. Complies with FBI and state laws for accessing criminal records with mandatory trainings and required audits.

CITY ATTORNEY Suggestion: Purchasing software to streamline case preparation to a paperless system for efficiency and allow timely follow-up to the Court and defense attorneys, which will cut down the cost of file folders and using an abundance of copier paper that produces 20 to 50 sheets per file. Shared responsibility between attorney and support staff to maximize efficiency.

ELECTIONS Partnering with Summit County is an effective cost-savings measure. In even years, we provide facilities and man the early-voting process. In odd years, when the City has its elections, if the County has any ballot initiatives, they share the cost of supplies, election judges, legal noticing, production of ballots, etc.

Description:

FINANCE This program is to assure that all financial transactions of Park City Municipal Corporation are properly administered and reported so as to address applicable laws, management information needs, and constituent requests. The Finance Department oversees the City's investment portfolio to ensure safety, liquidity and optimum yield. The Finance Department accumulates data to account for the City's capital assets, including infrastructure, as required by accounting principles generally accepted in the United State of America. Additionally, the department coordinates the City's annual audit and prepares the Comprehensive Annual Financial Report.

Council Goal:

008 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Fiscally and Legally Sound In an effort to keep the City fiscally and legally sound, the City must adhere to federal laws and regulations as well as requirements imposed at the state level. As stewards of the public trust, the Finance Department continues to receive education and training in the areas required by those entities. Also, changes are constantly happening in governmental accounting, so the Finance Department keeps up with those pending items that may turn into requirements for the City.

Description:

CITY MANAGER Maintain a record of City Council proceedings, including minutes and motions. Maintains ordinances, resolutions, agreements, easements, professional services contracts. Administers oaths and acknowledgements under the seal of the City. Performs duties as required by the Municipal Code, the City Council, or the City Manager. Functions of the City Recorder play a vital role in the coordination and management of records of City Council proceedings, minutes and motions. The Recorder maintains original documents including ordinances, resolution, agreements, easements, professional services contracts. The Recorder is also charged by Code to administer oaths and acknowledgements under the seal of the City. The Recorder performs duties as required by the Municipal Code, the Mayor and City Council, and the City Manager.

Council Goal:

010 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Transparent Government Council has identified open and responsive government as a top priority. Much of the public's interaction with the City is through the Executive office. The Recorder and Senior Recorder are the people that are responsible for much of the perception that the City Manager and Mayor are responsive to citizens. They are often the first line of contact for the public and are an extension of the Mayor and City Manager roles.

Description:

STREET LIGHTS/SIGN The Streets Department is responsible for the operation and maintenance of 836 City owned street lights and leases 128 lights from Rocky Mountain Power Company (RMP). Items included are service and maintenance of control panels, wiring and electrical. In addition the Streets Department is responsible for the installation and maintenance of 2,900 street signs throughout town. The Streets Department provides a variety of services and maintenance for this program. It requires that routine inspections and maintenance be performed throughout the community to ensure the street lighting network is maintained in good working condition to provide safety and security to residents and guests. Challenges to this program are maintaining an aging lighting network, including fixtures, wiring, and coordinating repairs and maintenance with RMP.

Council Goal:

006 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Well-Maintained Assets and Infrastructure Effective Transportation has been identified by Council as a high priority through Council's goals (Outcomes Area) and the strategic plan. The community has also expressed their desire for lights and signage through citizen requests. The Street Lights and Signs program is a critical function of the health and safety of the community and is regulated by the Federal Highway Administration (MUTCD).

STREET LIGHTS/SIGN Collaboration: Being in the Water and Streets Division of Public Works, the Streets Department has a primary maintenance function in supporting Street Lights and Signs. Working collaboratively with Rocky Mountain Power, Sustainability, and the Engineering Department has created opportunities to incorporate new technologies, which allows for greater productivity. Innovation: The Street Department is looking for ways to enhance environmental stewardship while decreasing carbon footprint and equipment downtime through innovation. Recent examples include: Retrofitting existing lights to LED lights along Silver King Drive, Empire Ave, and most recently along Iron Horse Drive. Over the next year or so staff will request approval from City Council to begin retrofitting all street and path lighting to LED.

BUDGET, DEBT & GRANTS Currently the Budget and Finance Departments provide a high level of budget preparation services to the City with regards to budget process, documentation, and monitoring. The budget process includes: staff coordination; data input and collection; report creation and distribution; BFO staff assistance; BFO software creation and upkeep; Council and staff presentations; end-of-year balancing; and Pay Plan participation. Budget documents include the creation of Volumes I and II of the Budget Document, meeting GFOA Award criteria, submittal of the State Budget Audit, and the creation and distribution of the Citizen's Budget. Budget monitoring includes managing the desktop budget toolbox, weekly and monthly budget updates, as well as staff training and assistance on budget related issues.

TECHNICAL & CUSTOMER SERVICES www.ParkCity.org is a core component in how we communicate and provide information. In coordination with other websites and social media efforts, Internet traffic is directed to the City website and provides the opportunity to measure the relevance and quality of the information being provided. This program allows departments to create website content and submit for review. This helps ensure that branding and readability guidelines are met before information is published. The City website is also accessible to mobile devices, a growing need and expectation. Users can receive automatic email notifications for a variety of City topics.

Description:

CITY COUNCIL Mayor and Council are the legislative and governing body which exercises the powers provided by constitutional general laws of the state together with implied powers necessary to implement the granted powers. City Council plays a vital role in outreach and communication with citizens of Park City.

CITY MANAGER Inform and educate the public through venues including media, newsletters, website, and direct outreach. Include citizens through open houses and public meetings. Communicating the City's position to residents through local and regional news media, as well utilizing the City's website to reach the community and provide excellent resources at minimal cost.

COMMUNITY ENGAGEMENT This area organizes and conducts neighborhood meetings and targeted citizen input sessions including community visioning, identifies issues of community interest and/or concern and develops messaging to support the City's vision and goals. Monitors public opinion, promotes positive media exposure, and prepares various materials including press releases, position statements, speeches, newsletters, social media, web content and reports. Works closely with City departments to develop and implement public information and media strategies. Staff is readily available to respond to media, organize and promote community meetings and open houses and implement public information campaigns. A monthly newsletter is produced and a biennial community survey implemented. Staff meets with HOAs as requested. Community outreach and engagement efforts include virtual participation through technological enhancements reaching new demographics including younger residents and Spanish-speaking residents. The community engagement program will also enhance the quality of citizen engagement.

ECONOMY Organizes and conducts neighborhood meetings and targeted citizen input sessions prior to and during planning and implementation of capital and other team projects. In coordination with Community & Public Affairs, prepares various materials including press releases, position statements, web content and reports. By focusing on this as a priority, we currently provide an exceedingly high level of service in this area.

Council Goal:

009 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Community Engagement An open and responsive government creates transparency through the utilization of many forms of media and through many channels of communication. Community outreach and citizen engagement are the cornerstone of an open government. Providing opportunities for citizens to become informed and engaged, and the extent to which residents that take those opportunities is an indicator of the connection between government and populace and a hallmark of Open and Responsive Government. Proposed Level of Service: The move of the Analyst I position from IT to Public Affairs will improve the timeliness of public notifications. It eliminates the "middle man" and allows public affairs to publish directly. It also provides a level of content review to ensure consistency with approved style guide.

Section 4: Cost Savings / Innovation / Collaboration

COMMUNITY ENGAGEMENT In the last budget cycle Community Affairs purchased a keypad polling system that has been used extensively by the Planning Department in community outreach and in other public meetings. We will continue to innovate by employing new applications in citizen engagement using mobile phones. These apps, such as Poll Anywhere, are cost effective and do not require hardware acquisition. Other cost savings include bringing community engagement and communications trainings to Park City and cost sharing these programs with other agencies, and developing in-house training programs.

Section 5: Consequences of Funding Proposal at Lower Level

CITY COUNCIL Funding membership fees at a lower level would severely impact the City's partnership with Utah League of Cities and Towns who offers Park City the services of a skilled team of professionals to assist with the creation of policies and also provides significant support at the state legislative level. Funding noticing at a lower level would prevent Park City from meeting the noticing requirements of the State of Utah for public and open meetings, as well as required publication of Ordinances.

CITY MANAGER Funding at a lower level would limit the City Manager's ability to meet regularly with members of the county government, school district, fire district, water reclamation district and other recreation entities. Also, participation in community events would be restricted. Furthermore, less funding has the potential to decrease our current high level of civic engagement. People are busy and their lives are complex. We have to continue to evolve our methods of civic discourse and participation in both form and opportunities. Technology, new approaches and targeted outreach are key to diversifying the community participation. Without an investment in technology and other resources to

accomplish this goal, it will be difficult to maintain our current levels of participation. Finally, the City would get less input and buy-in at the beginning of a project. The process would be staff driven and become more efficient on the front end, but we would be highly vulnerable to criticism from unsatisfied stakeholders.

FINANCEAs administrators of the business license process, business license expertise on the ordinance is required. The process involves the application, administration, education and issuance. The demand for business licenses increases year over year.

Council Goal:

032 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Fiscally and Legally Sound This program is necessary to uphold the City Ordinance for business licenses. It is imperative that the process of making sure that the businesses that come to this City are safe for the constituents and our environment is paramount in determining if a license is granted. This program is continually working with Public Safety, the Building Department and the Planning Department to ensure the process is adhered to.

Description:

FINANCE The Finance Department provides payroll, accounts payable and accounts receivable services. These services are provided with accuracy and timeliness. Another important factor of this program is customer service. Not only is this service provided to the public, but it is provided to internal departments as well.

Council Goal:

037 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Fiscally and Legally Sound In an effort to keep the City fiscally and legally sound, the City must adhere to federal laws and regulations as well as to requirements imposed at the state level. As stewards of the public trust, the Finance Department continues to receive education and training in the areas required by those entities. The Financial Services program strives to maintain a high level of internal customer service as well as external customer service. ENGINEERING The addition of AutoCAD Civil 3D software will allow Engineering Staff to perform design work and generate exhibits without the help of professional consultants. This will allow staff to prepare the necessary documents to bid small scale capital improvement projects in house. It will also allow Engineering Staff to better assist other departments by providing preliminary design and feasibility studies of desired roadways or utility alignments.

Section 5: Consequences of Funding Proposal at Lower Level

Desired Outcome:

Criteria for Meeting Desired Outcome

Transparent Government City Council has been a member of the Utah League of Cities and Towns for many years. ULCT provides services to communities throughout the State of Utah. Annual membership rates continue to increase and a budget request has been submitted to keep up with the increased costs. Municipalities are required to publish legal notices, which consist of agendas, public hearings, and publication of ordinance approvals. The budget request reflects actual expenditures for these notices.

CITY MANAGER Drawing from the professional expertise of Staff, the Manager is able to reduce spending for discretionary consulting services.

Section 5: Consequences of Funding Proposal at Lower Level

CITY COUNCIL	Partnerships with Utah League of Cities and Towns provide Park City the services of a skilled team of professional to assist with creation of policies and also provide significant support at the state legislative level. Reduced funding could prevent the City from participating in this valuable partnership. Reduced funding for Legal Notices would lessen the City's ability to comply with legal requirements of the Utah State Code.
CITY MANAGER	Reduced funding would result in delays in framing policy and would necessitate less detailed implementation. Council will not be able to implement as many initiatives. Partnerships with organizations such as Utah League of Cities and Towns offer Park City the services of a skilled team of professionals to assist with the creation of policies and also provide significant support at the state legislative level.

STREET MAINTENANCE Streets Maintenance Team is responsible for maintaining 130 lane miles of roadway and numerous miles of sidewalks and paths throughout Park City. The pavement management program maximizes pavement life and reduces lifecycle costs. Some of the items included are: Roadway maintenance, guardrail, sidewalks, curb & gutter, pavement striping and bike paths. Challenges to the goal of this program are: Volatility of asphalt oil costs, aging infrastructure, uncertainty of future B&C road funds and community expectations. The Streets Department provides a variety of services, maintenance, and capital renewal projects for this program. It requires that Street and Sidewalk maintenance be performed throughout the community to ensure effective multi-modal transportation and public safety.

CITY ATTORNEY The Self- Insurance/Risk Management Fund provides for a fairly high level of risk management. Park City exposures are unique due to its resort environment, degree of visitation, and extensive public services. The current risk management program provides a balance of self-insurance and risk transfer. Insurance coverage currently includes liability, property, workers compensations, boiler & machinery, crime, bonds, and other minor policies related to City leases. Provide lines of insurance and underwriting insurance requirements on City contracts and projects, as appropriate for risk transfer. Provides response and follow-up to accidents/incidents, and administration/defense for claims and litigation. Creates and maintains policies designed to minimize exposure to loss, review claims against the city; review insurance premium quotes and coverage options; maintain any losses to a minimum.

SELF INS & SEC BOND Also includes Safety Programs and Security Maintenance accounts.

Council Goal:

HUMAN RESOURCES Benefits programs include health, dental, retirement, disability and life insurance offerings. The stability of employees made available by these programs allows the City to remain competitive with marketable and comparable employee job opportunities. This benefits both the internal and external City customer with longevity, training and institutional memory. This also allows employees the occasional needed flexibility to deal with significant and minor challenges in their personal lives, which allows them to be productive and stable in the work force. Benefits costs are included as part of salary comparison data undermining salary levels, so quality programs at low costs are important to both the City and the employees.

Section 4: Cost Savings / Innovation / Collaboration

HUMAN RESOURCES Competitive benefit offerings provide greater stability and allow the City to overcome unnecessary additional training, recruitment and replacement costs. Industry studies cite total costs of recruitment, training and lost productivity associated with turnover at 2-3 times the cost of a position's annual salary. Cost savings by remaining competitive with other job opportunities of employees is significant to the City. Innovations in this area include costs savings associated with renewals by completing some necessary administrative work in-house, as well as adopting online programs to lower customer service costs by producers.

Section 5: Consequences of Funding Proposal at Lower Level

HUMAN RESOURCES Reductions in established benefits programs would result in employee compensation not meeting the City standard of "market pay" as benefit costs are one contributor to "total compensation" comparisons. Market analysis would need to be conducted by staff, as well as revised recommendations by Council on compensation directives.

Description:

BLDG MAINT ADM The Building Maintenance Department provides a variety of janitorial services for this program. It requires that janitorial services be performed in City buildings to ensure cleanliness and a respectable appearance for staff and visitors. Includes general cleaning services such as carpet, windows, restrooms, offices, and common areas. Much of this program is outsourced to private businesses for efficiency. Challenges to the goal of this program are high costs associated with environmentally friendly cleaning products, which are used due to increasing community expectations to go "green".

Council Goal:

Gold Medal Performance Organization Council has identified open and responsive government as a top priority. Much of the public's interaction with the City is through the Executive office. CITY MANAGER While lower salaries are not a specific goal, it is likely that the people hired to eventually fill the roles of a retiring City Recorder and Senior City Recorder will start at a salary lower than the people currently in those roles. The City benefits greatly from the experience of the current City Recorder and Senior City Recorder and they are paid accordingly.

Section 5: Consequences of Funding Proposal at Lower Level

CITY MANAGER If there is no overlap between the current City Recorder and Senior City Recorder and their respective replacements, there will be a reduction in services levels for a period of at least one to two years. By the nature of being new, any new hires that do not have the opportunity to learn from the current City Recorder and Senior City Recorder will take significantly longer to learn the job. New people are just slower... and that slowness is exacerbated by having to learn everything without any training.

Support of public computers, internet access, web interface, library software for organizing and providing access to the collection are also major components as well as tracking Library finances. Development of a 21st Century Library includes provision of a high-tech information interface. Catalog and process all new items for public checkout. Maintain equipment and software for 33 computers and wi-fi access. Ensure that materials are ordered, received and paid for in a timely manner and accurate records are maintained.

Desired Outcome:

Criteria for Meeting Desired Outcome

Arts & Culture The library helps to meet the desired outcomes by: 1. Providing free and open access to information and technology (Connected, knowledgeable, and engaged citizens) 2. Providing free and up-to-date technology access to ensure that all segments of the community have the opportunity to be knowledgeable and engaged.

Section 1: Scope

Change in Demand

Program Experiencing a SUBSTANTIAL increase in demand of 25% or more

Explanation

Personnel is the biggest need in the Technical Services Program. This department catalogs and prepares all new materials for the public and currently has a 3 month backlog. There is a deficit of 14,203 hours per year in staffing to handle an additional 16,789 items coming into the Library each year. Returned books are not getting back to the shelf in the desired 1-3 day period, which makes finding and helping the community difficult as we respond to their information needs. With the help of additional staff, we will be able to maintain the current level of service with the growing usage. In addition, more funds are needed for professional development resources for staff to keep them trained in cutting-edge 21st Century Library Services. We have no funding for phones currently. All library departments depend on software to provide service, and costs for those resources are continually rising. Collection use went up by 13,377 and, in addition, there are a large number of titles that need replacing due to increased usage.

LIBRARY The library receives a reduced rate for public internet access through the e-rate program. Broadband access was installed with grant dollars in partnership with the Utah Education Network. As a part of the OCLC Cooperative the library shares cataloging records with other libraries, thus expediting the process of preparing item descriptions for the library catalog.

Section 5: Consequences of Funding Proposal at Lower Level

LIBRARY Not funding this program will leave a backlog on returning materials to the shelves, updating technology, and in processing newly acquired materials for the public. This is not an acceptable level of service. Staff is stretched thin as we work to operate the new building. Currently, as things fall behind our Librarians are backfilling for tasks in this area, which is not an efficient use of their time and costs the City Librarian salaries for tasks that can be managed by Clerks. We have deficits at the Librarian level for training and development, project completion, and public program development as Librarians take on Clerical duties.

BLDG "Cost Savings": The Building Maintenance Department through the building repairs and maintenance program is able to extend useable life of facilities reducing overall costs. "Innovation": The Building Maintenance Department continually looks for creative ways to extend the life of building components through preventative maintenance. Industry trends are to move towards "greener" technologies.

COMMUNITY ENGAGEMENT This program area includes crisis communications during unforeseen and/or sensitive events. Develops and disseminates emergency messages to the community, media and other stakeholders. Develops and maintains an organization crisis communication plan. The current level of service provides for biannual emergency preparedness outreach, timely emergency response with ongoing communications, limited continuing education within the state for the PIO and back-up PIOs and a limited social media outreach. Enhanced Level for Service.

Council Goal:

067 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Safe Community While 81% of the community rated the city's public information services as "excellent" or "good" only 31% rated their level of emergency preparedness as "excellent" or "good". It is important that we continue efforts to emphasize emergency preparedness efforts over the next two years. The \$6000 budget request will replace discontinued EMPG funding and is necessary to maintain outreach and education

Section 4: Cost Savings / Innovation / Collaboration

COMMUNITY ENGAGEMENT

Cost Savings & Collaboration: The City collaborates extensively with the Summit County Health Department and Summit County Manager's office in its emergency communications efforts. This allows us to operate a lean emergency communications staffing level. Emergency communications staff provide cross-jurisdictional support during emergencies and maintains a regional wildfires website. Staff are members of the UT PIO Association and participate on its board and as presenters at the statewide conference. Staff is also active in the National Information Officers Association.

Description:

TECHNICAL & CUSTOMER SERVICES Records retention and archiving includes the storage, access and destruction of paper and electronic records. The capture and storage of paper records is managed through this program and spans multiple facilities and is approaching 3,000 cubic feet of storage. Access is provided to departments for research and for GRAMA requests for both paper and electronic formats. Secure destruction of records occurs when all the necessary criteria is met including GRAMA, Legal and departmental needs. Paper records are also digitized for electronic reference.

COMMUNICATION CENTER The Police Department also manages records in a similar fashion to meet requirements for Federal and State public safety guidelines. The Records Division is responsible for the maintenance and process of all police records. The Records Division process's over 10,000 citations, 500 traffic accident reports, 2,400 crime reports, 600 arrest reports and fills over 3,000 records requests annually. The Records Division is required under Utah State Statute to process records and submit them to the state in a required time period. The Records Division is responsible for providing statistical information to both state and federal agencies.

Council Goal:

038 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Transparent Government Records accessibility represents a vital component to providing open records access to citizens and to meet the requirements of the Government Records Access and Management Act (GRAMA). Funding is identified to further enhance records services, but in conjunction with server and storage demands. Records operations provides effective record delivery and continues to work with departments to minimize and eliminate paper oriented processes. Also, the Records Division is an essential link as the first point of contact with the public as they enter the police station. They are essential in providing various forms of documentation to the community and in processing documentation that meet state and federal requirements.

TECHNICAL & CUSTOMER SERVICES

New innovative and collaborative approaches were taken this year including: conversion of retention schedules into a database for ease of access and compliance verification; centralized GRAMA process for records tracking and reporting; creation of a new records room and relocation of library records.

Section 5: Consequences of Funding Proposal at Lower Level

TECHNICAL & CUSTOMER SERVICES

Reduction of funding will thwart efforts to eliminate paper processes. While current processes could continue, our physical storage capacity is also limited, thus reduction in storage duration cycles (Record Retention Schedules) would be necessary. Also, a decrease in funding of the Records function would diminish the high level of customer service now in place. It would also hinder our ability to meet our state and federal for reporting requirements.

Council Goal:

020 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Vibrant Arts & Culture The library helps to meet the desired outcomes by: 1. Providing free and open access to information and technology (Connected, knowledgeable, and engaged citizens) 2. Providing a meeting space for community interaction and exchange of ideas (Vibrant community gathering spaces and places) 3. Offering exhibits and author programs (Vibrant arts and culture offerings for community and visitors)

Section 1: Scope

Change in Demand

Program Experiencing a SIGNIFICANT increase in demand of 15% to 24%

Explanation

With the help of additional staff, we will be able to maintain the current level of service with the growing usage. In addition, more funds are needed for professional development resources for staff to keep them trained in cutting-edge 21st Century Library Services. We have no funding for phones currently. All library departments depend on software to provide service, and costs for those resources are continually rising. Collection use went up by 13,377 and, in addition, there are a large number of titles that need replacing due to increased usage. Programming demand has increased and bringing authors and other presenters has become expensive. The YouCreate Lab has needs for new technology and while maintaining current resources.

Section 4: Cost Savings / Innovation / Collaboration

LIBRARY Adult program partnerships are utilized to decrease costs while still offering high quality classes and programs to the community. We offer the community free access to fee-based databases through partnership with Utah State Library.

Section 5: Consequences of Funding Proposal at Lower Level

LIBRARY If staff is unable to receive additional training, they will be unable to provide a high level of service to library users and unable to complete the visual media lab project. Without the additional funds for materials, including those needed for library expansion and 21st Century Development, the library will not be able to keep up with demand for materials and resources. In addition, the library will have to reduce electronic resources due to cost. At this time, it is impossible to re-allocate funds from print materials to technology because there is still a strong demand for print materials. Hard copy items purchased in the past fiscal year for the adult collection check out often. For example, 97% of books on CD, 95% of large print, 97% of DVDs, and 94% of Fiction that were purchased in the last fiscal year circulated. This illustrates a strong demand for these materials and removing funds from these collection areas would hurt the quality of the library collection.

TECHNICAL & CUSTOMER SERVICES

Savings from reducing the level of support provided by vendors has been maximized in past years. However, it is sometimes prudent to minimize software and equipment issues through elevated support contracts and thereby reduced risks caused by failures of critical systems e.g., email, network and storage systems.

The effect of this curtailment could be the passing of legislation that negatively impacts Park City. BUDGET, DEBT & GRANTS Currently the Budget Department provides a high level of critical analysis for all City departments as well as the City Manager and City Council. This includes financial, policy, legislative, and miscellaneous analysis. The finished product in this area includes research, process improvement, polished presentations and documents. In essence, the Budget Department acts as a resource for all types of critical analysis whether budget related or not. One example would be the assessment of several economic development feasibility studies to determine the economic impact of commercial ventures by projecting sales, franchise, and property taxes, as well as other planning, building, and engineering fees brought by the development.

Council Goal:

118 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Transparent Government Council has approved in the Strategic Plan, Open and Responsive Government, that one of their Desired Outcomes is to be fiscally and legally sound. In order to be fiscally sound as a City, it is of the upmost importance that Council, the City Manager, and staff have a high level of critical and professional analysis at their disposal. A City without this resource on staff would have to contract out for various studies or expertise in order to provide the same level of service, which would be more expensive.

Description:

GOLF MAINTENANCE The Golf Maintenance Department provides a variety of services, maintenance and capital renewal for this program. It requires that golf maintenance provides sound agronomic practices for the continued sustainable playability and condition of the golf course. Items included are mowing, irrigation maintenance, tree care, course amenities, greens rolling, flowers and presentation. Challenges to the goal of this program are environmental regulation, maintaining an evolving eco system, increased cost of green technology, aging infrastructure, and increasing player demand and community expectations.

Council Goal:

098 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Well-Maintained Assets and Infrastructure Recreation, Open Space and Trails has been identified by Council as a high priority through Council's goals (Outcomes Area) and the strategic plan. The community has also expressed their desire for a premier public golf course in the intermountain region through golf user requests and community satisfaction surveys. The Golf Maintenance program is a critical function in preserving the Park City "Brand".

BUDGET, The Budget Department provides a moderate level of performance measurement management for the City. The Budget Department assists DEBT & GRANTS staff in keeping track of their internal department performance measures as well as acting as a liaison between ICMA's Center for Performance Measurement Program (CPM) and staff.

Council Goal:

122 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Gold Medal Performance Organization

Council has approved in the Strategic Plan, Open and Responsive Government, that one of their Desired Outcomes is to be fiscally and legally sound. In order to be fiscally sound, as a City, it is important that Council, the City Manager, and staff have a high level of performance measure and benchmarking management. Additionally, Council has identified the Budgeting for Outcomes (BFO) process as a high priority; intrinsic to that process is a high level of performance management.

Change in Demand

Program experiencing a MODEST increase in demand of 5% to 14%

Explanation

Helpdesk statistics show reduction in demand, this is explained by the adoption of new security technologies that has minimized computer rebuilds; adoption of ADP; and changes to dispatch operations. However, 2018 represents a small respite of demand since 2014 while other demand growth indicators are strong.

HUMAN RESOURCES LEAD is a 1-week intensive program run several times throughout the year. It complements the Senior Executive Institute (SEI) by duplicating the core learning experience for the level of department heads, division heads, and senior staff of local government organizations. Preference is given to department heads, division heads, and senior staff in local government organizations.

LEAD TRAINING To take our communities confidently into the future, public leaders and executives must adopt a proactive approach to change both inside the public organization and outside in the community. They must invest the time and resources required for themselves and their leadership team to create and maintain a continuously improving, learning organization. The LEAD program at the University of Virginia helps tackle this issue and prepare leaders in the public sector.

Description:

PARKS & CEMETERY The Parks and Fields Maintenance Departments provide a variety of service and maintenance for this program. It requires that trash cleanup be performed throughout City facilities to ensure the preservation of the Park City "brand", public safety and overall cleanliness. Items included in this program are: sweeping and trash removal service along sidewalks, bike paths, City facilities, Parks and right-of ways. Challenges to the goal of this program are increasing use of stickers on city equipment and facilities. This program supports maintenance to City owned open space property.

Council Goal:

101 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Well-Maintained Assets and Infrastructure Recreation, Trails and Open Space has been identified by Council as a high priority through Councils goals (Outcomes Area) and the strategic plan. The community has also expressed their desire for trash clean-up through citizen requests. The Cleanup program is a critical function for the preservation of Park City.

Description:

LEADERSHIP The purpose of Leadership Park City is to train new and emerging leaders and deepen the pool of people willing to dedicate themselves to accomplishing worthwhile community goals. It offers potential leadership an experiential, long-term, group-oriented learning opportunity. The program consists of 10 individual training sessions, a 5-day field trip and several social events. 30 adult and 2 high school participants are accepted each year for this 10-session program. The program is designed to give participants a wide variety of networking experiences in addition to content on local and state government and various leadership skills training opportunities. Each class further chooses a community-oriented project to accomplish over the course of their leadership year. Participants are awarded a scholarship to defray most program expenses, except for the cost of the annual five-day CityTour, which is a program requirement.

Council Goal:

123 Engaged & Effective Government & Citizenry

Desired Outcome:

Criteria for Meeting Desired Outcome

Regional Collaboration Preserving Park City's Character depends in large measure on encouraging, engaging and involving emerging leaders in a wide variety of governmental, non-profit, and civic and business associations. It is this continuity of leadership and the community's commitment to bring new blood into the mix and educate them that ensures that our community's unique character is protected and preserved.

Section 4: Cost Savings / Innovation / Collaboration

LEADERSHIP The program runs on a very lean budget and depends on extensive collaboration with other governmental entities, businesses and nonprofits. A portion of each year's budget is raised from the Chamber, Summit County, the three ski resorts, Lodging Association, Board of Realtors, banks, alumni and other private donations, among others.

Section 5: Consequences of Funding Proposal at Lower Level

LEADERSHIP One of the hallmarks of Leadership Park City is that financial considerations have been largely removed from the selection process assuring the widest possible community diversity. This is accomplished by providing all selected participants with a scholarship to help defray program costs. We are the only community leadership program to my knowledge that does this, and is one of the reasons we have been so widely recognized and awarded. It demonstrates Park City's commitment to train its emerging leaders. The philosophy is that great communities invest in great infrastructure like parks, open space, roads, bike paths, etc., but that excellent communities also invest in their human leadership infrastructure. With less funding, we could charge individuals to participate and only award scholarships on an as needed basis.

Description:

HUMAN RESOURCES Human Resources designs, manages and implements the performance management process with collaboration and input from the management team. It includes communication and training on the process and adhering to deadlines with the management team. Evaluating the performance and developing the potential of the employees is critical to the success of the City. This is achieved by formalizing the communication between employees and management and documenting performance issues that need to be addressed. Human Resources reviews the process for consistency, completion and accuracy.

HUMAN RESOURCES The ability to maintain City services that are both open and responsive to the community needs is sometimes unpredictable. Short-Term Citywide personnel are temporary workers, interns and/or external services that allow for flexibility in this area. This prevents unnecessary burnout to departments experiencing temporary increases in workload due to City needs, and saves the City in both consulting and long term employment costs. This program also allows the City to be flexible for emergency situations, unforeseen issues, and workloads.

HUMAN RESOURCES

Cost savings are substantial, depending on varying situations. Savings are achieved by reducing overtime dollars as well as time and resources of experienced and higher paid employees; otherwise these employees would be using valuable time on unnecessary research to complete unusual projects outside of their experience and training, as well as work on projects well below their level of pay and expertise.

Description	Comments
-------------	----------

The existing gates on Marsac have been closed numerous times over the last few years. This request is to add another gate southbound just south of Chambers Street so cars can turn around onto Chambers street instead of driving 1/2 mile up to the existing gates. this project would also add a gate just north of Guardsman Connection so the Police no longer need to direct traffic when the gates are closed.

000494	Not Recommended	Fisher				Preserving & Enhancing the Natural Environment

Description	Comments
Upgrading the field lighting at Quinns to LED fixtures. Staff met with Musco lighting to look at mitigating the light spill & switching to LED lights at PCSC. The new LED fixtures could be installed on the existing poles, the total number of fixtures needed would be reduced from 148 to 96, there would be a reduction of at least 50% in light spill & glare. The estimated cost for the lights without install is \$330,000. It is estimated that install would be an additional \$100,000. Budget has a \$70,000 contingency. This is for both fields at PCSC. Estimated reduction of energy & maintenance costs by 50 to 85% over typical 1500w HID equipment.

Description	Comments
-------------	----------

This annual Capital Project will implement low cost yet effective complete streets elements on existing local streets/roads consistent with the City's recently adopted Complete Streets Policy. Transportation Planning, PCPD, and Engineering recently completed a Road Safety Assessment with the assistance of UDOT and FHWA which outlined various high, medium, and low priority projects. These funds will be used to implement those recommendations.

000529 Loader

Description												Comments	
PC Heights has now reached 50% build out. With this milestone, the city is now obligated to provide maintenance. The maintenance program includes signs, pavement maintenance, and snow removal services. A request for an additional winter time staff to operate the equipment is being requested as part of this budget as well. Due to the amount of wind drifts and narrow streets we are selecting a Cat 950M loader equipped with a severe duty folding V blade to accomplish snow removal in the most efficient way possible. The 950 loader is the best piece of equipment to plow Richardson Flat road and is capable of removing snow at the Richardson Flat Park and Ride. The loader will also be utilized in other parts of town during snow plowing hauling and widening efforts.

CP0003 Old Town Stairs

Description	Comments
-------------	----------

An ongoing program to construct or reconstruct stairways in the Old Town Area. Stairways that are in a dilapidated condition beyond effective repair are replaced. Most of the stair projects include retaining walls, drainage improvements and lighting. Like trails, the priority depends on factors such as adjacent development, available easements, community priority and location. Funding comes largely from RDAs so most funding is restricted for use in a particular area. Tread replacements are planned beginning with the oldest in closest proximity to Main Street. New sets proposed include 9th St. with three new blocks at \$300,000 (LPARDA);10th St. with 1 new block at \$100,000 (LPARDA);possible improvements to Crescent Tram pending resolution of the current parcel discussions (no identified funding); Reconstruct 3rd St, 4th St, 5th St, others as prioritized (Main St RDA). See also Project #722.

CP0005 City Park Improvements

Description	Comments
-------------	----------

As Park City and surrounding areas continue to grow, there is a greater public demand for recreational uses. This project is a continuing effort to complete City Park. The funds will be used to improve and better accommodate the community's needs with necessary recreational amenities. The current recreation building needs to be replaced with a larger more functional space that will meet the needs of day camp & other recreation programs. The facility has some conceptual designs being done through the Recreation Facility Master Plan.

CP0013 Affordable Housing Program

Description	Comments
-------------	----------

The Housing Advisory Task Force in 1994 recommended the establishment of ongoing revenue sources to fund a variety of affordable housing programs. The city has established the Housing Authority Fund (36-49048) and a Projects Fund (31-49058). Fund 36-49048 will be for the acquisition of units as opportunities become available, provision of employee mortgage assistance, and prior housing loan commitments. It will also provide assistance to developers in the production of units.

CP0041 Trails Master Plan Implementation

Description	Comments
-------------	----------

Description	Comments
-------------	----------

Existing Funds will be utilized to construct the following trails and infrastructure: Prospector connection, April Mountain Plan, Historic trail signage and Daly Canyon connections. Additionally, Phase III trailheads at April Mountain and Meadows Dr. East. Requested funds for future FY include projects associated with continuation of trail connectivity as outlined in the Trails Master Plan and those identified in the PC Heights MPD, more specifically identified as Phase I and II of the Quinn's Park and Ride connections. Easements have been secured for these pathways. Staff will utilize local and state grants to offset costs associated with these connections.

CP0250 Irrigation Controller Replacement

	Priority	Manager	Available Balance	YTD Expense	Encumbrances	Council Goal
CP0250	Recommended	Dayley	-4,417	21,940		Preserving & Enhancing the Natural Environment

Description	Comments
-------------	----------

The Parks Department has a total of 38 irrigation controllers located throughout town at all City facilities including, City buildings, athletic fields, parks, school fields, etc. These electronic devices provide irrigation control to landscaped areas by radio communication from the Central computer to the individual field units. Some of these controllers are 25 years old, as they were originally installed in the early 1990s. Over the past years we've continued to experience many electronic/communication problems with these old outdated field units. We recommend taking a systematic approach by replacing 4-5 controllers a year for the next several years. To date we have replaced 23 out of the 38 controllers. Projected completion 2019.

The Building Security Committee was established in 2008 and makes recommendations on security issues, training and equipment for all occupied city buildings. The two largest components are Closed Circuit Video Systems (CCVS) and Electronic Access Controls (electronic door locks), along with some smaller security upgrades including, alarms, fragment retentive film, lighting and training. In recent years we have expanded the use of some of these funds for exterior security measures for city buildings and special event venues. This is a multi-year project . Some funding for upgrades and/or replacements has been from the Asset Management Fund and individual departments. Emergency Management, Information Technology, Sustainability and Building Maintenance are partners in this project. We have made significant headway over the past 10 years. The majority of the work is expected to be completed by FY22.

CP0265	Recommended	Legge	100,414			Preserving & Enhancing the Natural Environment							

Description										Comments			
This request is to secure funds specifically for the improvement of the Crescent Tramway Trail creating an identifiable, safe, and connected pedestrian trail. The Crescent Tramway easement follows the historic rout of a narrow-gauge railroad which was first used in the late 1800s to carry ore from the Crescent Mine to the Park City Smelting Company. The trail begins near the corner of Park Ave and Heber Ave and winds up the foothills. It passes													

Description												Comments											
Woodside Ave, Norfolk Ave, and Lowell Ave, before it reaches a plethora of trails within the recreational open space areas. the tram route closed in 1898 after the smelter burned to the ground, and the railroad tracks were pulled up around 1901. The tramway has since been used as a pedestrian path, hiking trail, and bike route. Past development along the Crescent Tramway Trail has made it difficult to follow the pedestrian easement and it is even unrecognizable as a pedestrian trail in areas.

CP0269 Environmental Revolving Loan Fund

	Priority	Manager	Available Balance	YTD Expense	Encumbrances	Council Goal
CP0269	Recommended	Cartin	94,484			Preserving & Enhancing the Natural Environment

Description	Comments
Sustainability Staff is requesting \$100,000 in additional funds for the Environmental Revolving Loan Fund. With the hire of an Energy Project Manager through Rocky Mountain Power's demand side management program, Sustainability will be pursuing 3,000,000 kWh in energy savings over the next three years. This work will result in annual, ongoing savings of at least \$75,000 per year (\$225,000 per year by 2019). Increasing the Environmental Revolving Loan Fund by \$100,000, or to a total balance of \$278,000, will allow the Energy Project Manager to rapidly fund and deploy projects. The Environmental Revolving Loan Fund is repaid through energy savings. All but \$24,000 of the fund is currently invested in high return projects.

CP0288 Transit Signal Priority

Description	Comments
This CIP project will install Transit Signal Priority equipment in Signals along SR-248 and SR-224. This system will provide extra time on a green light when a transit bus is within the signal queue. This increased green time will contribute to the convenience and dependability of Transit travel times.

CP0290 APP Development

Description												Comments	
This App Development request consists of development services required to create and maintain new "Apps" that are becoming an expected part of city services delivery. It is anticipated that several core functions could be offered through Apps on mobile devices, namely requesting information and work from city staff. A proposed historic web app has been approved by Council and is expected to be completed fall 2014.

CP0300 Irrigation Screening Facility

Description	Comments
-------------	----------

The irrigation screening facility will provide screening of water from the Weber River and the potential Round Valley Reservoir. The purpose of this facility is to screen fine particles and organic material prior to entering the irrigation system. Without this facility, existing irrigation systems would become clogged and would not function properly.

Description											Comments

Fund irrigation system improvements to increase system efficiencies. Some of our irrigation systems are approaching 30 years old and in need of an upgrade. With new irrigation equipment or modifications, current systems could be updated to improve system efficiencies. The program would include: • Perform a water audit using a certified third party auditor to test the distribution uniformity (DU) of the larger systems. • Evaluate each park design and functionality; identify opportunities to modify existing park area to create a lower water use landscape. • Use audit information to identify inefficiencies in each system and outline future projects. • Create a program to systematically upgrade irrigation system and/or landscaping. Following system upgrades, the park would be retested to verify efficiency increases. The program would be an on-going program investing 25,000 annually.

Currently all recruitments (part time, seasonal, full time, etc.) are handled manually by HR and the respective departments conducting a recruitment.

Description												Comments	
The recruitment process involves manual entry of resumes and applicants' information. When a successful candidate is hired, the candidate must complete additional paperwork, that otherwise could be automated. Applicant tracking software would streamline the HR recruitment process. Applicant software generates digital versions of paper forms and tracks the candidates' progress through the recruitment. Thus improving the overall process.

CP0374 Building Permit Issuance Software

Description												Comments		
In order to increase customer service, efficiency and capabilities, the Building Department is requesting a new permit tracking software. Currently, the Building Department office staff manually type an inspection schedule to post online each day. Redundant permit files are created in order to receive fees (at the time of plan review deposit, permit issuance, increased bonds, etc,) a new permit is created. Applicants complete a carbon copy application forms and then must wait to allow time for the office staff to manually input their information into the computer. Inspectors hand write inspection reports in the field and then type the inspection results into the computer at the end of the day when they return to the office. 	Priority	Manager	Available Balance	YTD Expense	Encumbrances	Council Goal								
CP0441	Recommended	Knotts	93,549	16,451		Thriving Mountain Town								
Description						Comments								
This project is an effort to expand on the City's internal Transportation Demand Management Program that currently consist of Guaranteed Ride Home Program, subsidized PC/SLC Connect passes, departmental e-bike subsidies, and peak alternative travel incentives. This project proposes to construct shower facilities in Marsac, secure weather protected bike storage, and potentially a mother's nursing room to promote alternative transportation travel
