SUMMIT COUNTY, PEOPLE'S HEALTH CLINIC, THE PARK CITY CHAMBER OF COMMERCE, AND PARK CITY MUNICIPAL CORPORATION

HAVE JOINED TOGETHER TO INCREASE COVID-19 RAPID TESTING OPPORTUNITIES FOR ALL SUMMIT COUNTY BUSINESSES AND THEIR EMPLOYEES.

Per the State guidelines, individuals must quarantine after exposure to a positive COVID-19 person. Until recently, this quarantine period was 14-days. With changes to the State of Utah guidelines, persons who are quarantined due to a COVID-19 exposure can now return to work on day seven of quarantine if they are asymptomatic and have a negative rapid COVID-19 test.

Previously, accessing rapid tests was both problematic and costly for the business and employees.

Starting January 4, 2021 Summit County businesses and their employees can now receive a COVID-19 rapid test free of charge. This means people can return to work sooner and keep our businesses going. **There is an end in sight with COVID-19 vaccines on the horizon.**

Until vaccines are widely available, testing is one of the best options we have to slow the spread of COVID-19 in our community and help our businesses stay open while keeping their employees and patrons safe. **Remember, we're all in this together.** We are 100% committed to helping all Summit County business owners and employees safely weather the COVID-19 storm.

For more information about this program and how it can help your business, please call (435) 333-1546
