

STREETS DEPARTMENT SPRING RUNOFF INCIDENT ACTION PLAN

SANDBAG PICK-UP INFORMATION SHEET

The possibility of flooding from the spring runoff is real. In the event of isolated flooding Park City Municipal Corporation is prepared to respond to flood emergencies. Additionally, Park City will keep on hand a number of sandbags, both filled and unfilled, which are available for use by Park City residents and businesses.

Sandbags are intended for use by Park City residents and businesses only, to reduce flooding on residential or business property. Property managers requesting sandbags must identify the property location where sandbags will be used at the time of pick up. Residents are requested out of respect for others who may need them to not hoard or stockpile sandbags for future use.

Sandbag requests are available via the following locations:

- 1053 Iron Horse Drive
Parking Front Desk: 615-5301
Public Works Front Desk: 615-5315
- City Hall Front Desk
615-5000; follow prompts

Sandbag Request Information

- Name of resident
Proof of Park City residence required
- Address and Phone Number of resident utilizing bags
- Quantity of sandbags requested
Per address, residents may pick up 25 sandbags prefilled by PCMC
If an address needs additional sandbags, the resident will be required to fill bags themselves.

Restrictions:

- Park City will not load sandbags to order unless severe flooding event occurs. PCMC may place pallets in specific areas that are experiencing extreme flooding events.
