

Fire Prevention Restrictions

Due to the extremely dry conditions and potential fire hazards, emergency ordinances are in place restricting the use of fireworks, explosive devices and open fires.

Within Park City the use of following items are strictly prohibited June 28 - October 1, 2012.

Use of these items may result in fines and possible jail time.

Any and all class “C” fireworks. These include:

- Firecracker, cannon cracker, salute, cherry bomb or other similar explosive.
- Bottle rocket, skyrocket or any other device that that uses combustible or explosive material.
- Roman candle or other device that discharges balls of fire.
- Tube or cone aerial firework that propels comets, shells, salutes, flash shells, or similar devices.
- Chaser, whistler or similar device.

All open fires. A fire must be in a receptacle or structure specifically designed to contain the fire and prevent its spread.

The firing of any ammunition is illegal within the city limits. At this time 20 wildfires across the state of Utah were started by gun shots.

In addition, smoking materials are to be used within the confines of a vehicle within any urban wildland interface area and all waste from the ignition or smoking of said products be disposed of in a safe and appropriate manner.

Violations of this ordinance are deemed a class B misdemeanor and can result in fines and potential jail time.

Park City ordinances allow for the cost recovery of any expenses associated with the extinguishing of a fire caused by the negligent use of fireworks, fires, and /or the improper extinguishment of cigarettes or other smoking materials.
